DISTRIBUTION OF BANK DEPOSITS BY COUNTIES

JUNE 30, 1949

Includes Deposits of Individuals, Partnerships, and Corporations;

Excludes Interbank and Governmental Deposits.

Compiled with the cooperation of the
Comptroller of the Currency, the
Federal Deposit Insurance Corpo-
ration, the State bank supervisory
authorities, and the Federal
Reserve Banks.

BOARD OF GOVERNORS
OF THE
FEDERAL RESERVE SYSTEM
WASHINGTON

DECEMBER 1949

FOREWORD

This geographical distribution of bank deposits of individuals, partnerships, and corporations in the United States by counties, States, and Federal Reserve districts is the result of the cooperation of Federal banking supervisory agencies, the Federal Reserve Banks, and State bank supervisory authorities. The Comptroller of the Currency obtained the data for national banks and banks in the District of Columbia, the Board of Governors of the Federal Reserve System and the Federal Reserve Banks obtained those for State member banks, and the Federal Deposit Insurance Corporation obtained those for nonmember banks. State bank supervisory authorities cooperated in obtaining data for noninsured banks. Preparation of the data for mechanical tabulation was accomplished in part by the Federal Deposit Insurance Corporation and in part by the Board of Governors of the Federal Reserve System; final tabulations were made at the Board's offices.

The main body of the report shows by counties, States, and Federal Reserve districts the demand, time, and total deposits of individuals, partnerships, and corporations in all banks in the continental United States -- commercial, mutual savings, and other types combined -- on June 30, 1949. In addition to the figures on deposits held by all banks, there is a supplementary tabulation by counties, States, and Federal Reserve districts of the time deposits in mutual savings banks. Corresponding data as of December 31, 1947 are contained in a pamphlet published by the Board in July 1948.

Deposits of branches located outside of the county of the head office have been included with figures for the counties in which the branches are located, rather than with those for the county in which the head office is located. Because of these adjustments, the totals for various counties, States, and Federal Reserve districts may not agree exactly with other tabulations classifying deposits by counties, States, and Federal Reserve districts. Minor differences occur between the State and Federal Reserve district figures in this pamphlet and other published data because of the rounding of each county's figures to the nearest thousand dollars and compiling State and Federal Reserve district totals from these rounded figures.

New York City has been treated as a single county. Cities not part of any county have been treated as separate counties and have been indicated by the word "City" after the name. In the body of the report, counties in which there are no demand or time deposits of individuals, partnerships, and corporations have been listed and the figure columns left blank. Figures for a few banking institutions were unavailable; and in a few counties where branch data were not available for June 30, 1949, estimates based on prior reports were used.
