Note: The interest rates shown on this release are based on a survey conducted jointly by the Federal Reserve System and the Federal Deposit Insurance Corporation of loans made during the first full calendar week of each month by a sample of 370 insured commercial banks. They represent simple unweighted averages of the "most common" effective annual rate reported by respondents in each loan category. The "most common" rate is defined as the rate charged on the largest dollar volume of loans in the particular category during the week covered in the survey. Consumer instalment loan rates are reported on a Truth-in-Lending basis as specified in the Federal Reserve Board's Regulation Z.

^{1/} Loans of \$10,000 to \$25,000 maturing in one year or less.
