^{1/} Loans of \$10,000 to \$25,000 maturing in one year or less.

NOTE: The interest rates shown on this release are based on a survey conducted by the Federal Reserve System. In the April survey, 241 banks reported their rates on small short-term noninstalment loans to businesses; 46 reported their rates on feeder cattle operation loans; 61 reported their rates on other farm production operating expenses loans; 242 reported their rates on new automobiles; 57 reported their rates on mobile homes; 193 reported their rates on other consumer goods; 237 reported their rates on other personal expenditures; 157 reported their rates on credit card plans. All rates represent simple unweighted averages of the "most common" effective annual rate on loans made during the first full calendar week of the month in each loan category. The "most common" rate is defined as the rate charged on the largest dollar volume of loans in the particular category during the week covered in the survey. Consumer instalment loan rates are reported on a Truth in Lending basis as specified in the Federal Reserve Board's Regulation Z.

The sample for April contained 261 member banks.
