<sup>1</sup> Since Aug. 23, 1935, the date of the enactment of the Banking Act of 1935, this item comprises all deposits other than time deposits.<sup>2</sup> Demand balances with domestic banks, except private banks and American branches of foreign banks, plus cash items in process of collection. The difference between the figures shown in this column and the figures shown against the corresponding captions under "Assets" is accounted for by an excess of allowable deductions over gross demand deposits at a number of banks.<sup>3</sup> Reserves actually required are based on deposits at opening of business. The figures in this column, therefore, represent the reserves required to be maintained on the business day following the call date.<sup>4</sup> Based on member banks' books. These figures differ from those shown by the Federal Reserve banks' books because of a lack of synchronization of entries on the books of the Federal Reserve banks and the member banks.
