

Member Bank Call Report

No. 71

Condition of Member Banks
December 31, 1936

BOARD OF GOVERNORS
of the
FEDERAL RESERVE SYSTEM

WASHINGTON

THE MEMBER BANK CALL REPORT is published following each official call upon member banks for statements of their condition. It contains tables showing assets and liabilities and a classification of loans, investments, and deposits for all member banks (national and State) in the country as a whole, by Federal Reserve districts and by classes of banks. Tables are also given, by States and cities, showing assets and liabilities for all member banks. All figures included in this report relating to the condition of national banks were furnished by the Comptroller of the Currency. The abstract of condition reports of national banks issued by the Comptroller gives detailed statistical data regarding the condition of national banks.

¹ Demand balances with domestic banks, except private banks and American branches of foreign banks, plus cash items in process of collection. The difference between the figures shown in this column and the figures shown against the corresponding captions under "Assets" is accounted for by an excess of allowable deductions over gross demand deposits at a number of banks.

² Reserves actually required are based on deposits at opening of business. The figures in this column, therefore, represent the reserves required to be maintained on the business day following the call date. Pursuant to the provisions of law, the Board of Governors of the Federal Reserve System increased by 50 per cent the statutory reserve requirements on demand and time deposits, effective after the close of business August 15, 1936.

³ Based on member banks' books. These figures differ from those shown by the Federal Reserve banks' books because of a lack of synchronization of entries on the books of the Federal Reserve banks and the member banks.
