

MEMBER BANK CALL REPORT

NUMBER 114

CONDITION OF MEMBER BANKS

DECEMBER 31, 1949

BOARD OF GOVERNORS
OF THE FEDERAL RESERVE SYSTEM
WASHINGTON

C O N T E N T S

P A G E

Assets and Liabilities:	
Of All Member Banks December 31, 1949, November 1, 1949, and December 31, 1948	1
Of All Member Banks on Selected Call Dates, 1944-1949	2
By Class of Bank	3
By Federal Reserve Districts	4-5
Classification of Loans and United States Government Direct Obligations:	
Of All Member Banks on Selected Call Dates, 1944-1949	6
By Class of Bank	6
By Federal Reserve Districts	7
Of Reserve City and Country Member Banks, by Federal Reserve Districts	8-9
Assets and Liabilities of Member Banks in Each Central Reserve and Reserve City and of Country Banks in Each Federal Reserve District	10-13
Assets and Liabilities of Member Banks, by States	14-17
Deposits and Reserves by Class of Bank and Federal Reserve Districts	18
Assets and Liabilities of State Member Banks, by Federal Reserve Districts	19

These statistics are tabulated from condition reports submitted by member banks following each official call, a minimum of three of which are required by law each year. The Comptroller of the Currency tabulates the national bank reports and publishes the results in the *Abstract of Reports of Condition of National Banks*. The Board of Governors of the Federal Reserve System tabulates the reports of State member banks and publishes the combined statistics of national and State member banks in the *Member Bank Call Report*.

Member banks are classified according to their reserve requirements as central reserve city banks, reserve city banks, or nonreserve city ("country") banks. A member bank that has an office in a central reserve city is classified as a central reserve city bank; a member bank that has an office in a reserve city, but not in a central reserve city, is classified as a reserve city bank; a member bank that does not have an office in a reserve or central reserve city is classified as a country bank. However, some banks in outlying sections of central reserve cities have permission to maintain the reserves required of reserve city banks or country banks; and some banks in outlying sections of reserve cities have permission to maintain the reserves required of country banks. Condition reports of member banks are tabulated in accordance with the reserve classifications of the banks. Since a member bank that has two or more offices, whether in the same city or in different cities, submits a consolidated condition report, the report is tabulated according to a single location (that of the bank's head office, unless it has a branch in a city where banks are subject to higher reserve requirements).

The comparability of figures for succeeding call dates is affected somewhat by changes in Federal Reserve membership, mergers, etc., and by changes in the reserve classification of cities or individual banks. On October 6, 1949, nine central reserve city banks in New York were reclassified as reserve city banks.

CORRECTIONS IN MEMBER BANK CALL REPORT NO. 114, DECEMBER 31, 1949

The following items should be adjusted by the amounts indicated:

Commercial and industrial loans, including open-market paper	+ 72
"Other" loans to farmers	+ 77
Real-estate loans on residential property	+ 68
Instalment cash loans	- 15
Single-payment loans of less than \$3,000	-309
Single-payment loans of \$3,000 and over	+127
"All other" loans (including overdrafts)	- 20

The above adjustments should be made in the following pages, tables, and columns:

Page 6: Upper table, column "1949, Dec. 31"
Lower table, column "Country member banks"
" "All member banks"
" "All State member banks"

Page 7: Upper table, column "Total, all districts"
Lower table, column "St. Louis"

Page 9: Upper table, column "Total, all country banks"
Lower table, column "St. Louis"

¹ Beginning June 30, 1948, figures for various loan items are shown gross (i.e., before deduction of valuation reserves), and are not entirely comparable with prior figures.

² During the period December 30, 1944–June 30, 1945, the item corresponding to the present item "Loans to farmers directly guaranteed by the Commodity Credit Corporation" included loans to dealers, processors, and farmers' cooperatives covered by purchase agreements with the Commodity Credit Corporation, which are now classified as commercial and industrial loans, and loans to farmers with similar indirect guarantees which are now classified as other loans to farmers; consequently, December 31, 1945 and subsequent figures may not be entirely comparable with prior figures.

³ Prior to December 31, 1947, this item included United States savings bonds only; depository bonds were included with other United States bonds according to maturity.

⁴ See contents page for basis of and changes in classification of member banks.

¹ Demand balances with banks in United States, except private banks and American branches of foreign banks, plus cash items in process of collection. War loan and series E bond accounts were also exempt from reserve requirements during the period April 13, 1943, to June 30, 1947, and were, therefore, deducted in computing net demand deposits subject to reserve for the December 1944–December 1946 call dates shown on page 2. The difference between the figures shown in this column and the figures shown against the corresponding captions under "Assets" is accounted for by an excess of allowable deductions over gross demand deposits at a number of banks.

² The figures shown in the "Total" column represent the reserve balances as reported by member banks from their own books. They differ from those shown by the Federal Reserve Banks' books because of a lack of synchronization of entries on the books of Federal Reserve Banks and member banks. In determining whether member banks' reserves meet requirements, the reserve balances shown by the books of the Federal Reserve Banks are used.

Reserves actually required on a given date are based on deposits at the opening of business on that day, which is the same as the close of business the preceding day. Therefore, the figures in the "Required" column represent the reserves required to be maintained on the business day following the call date. Pursuant to the provisions of law, the Board of Governors of the Federal Reserve System prescribed the following requirements for reserves to be maintained by each member bank which were in effect on that date: Time deposits—5% for all member banks; net demand deposits—22% for central reserve city banks, 18% for reserve city banks, and 12% for country banks.

The figures shown in the "Excess" column are the differences between reserve balances reported by member banks on the call date and the reserves required to be maintained on the first business day following the call date. They are, therefore, merely approximations of the reserve position of member banks.

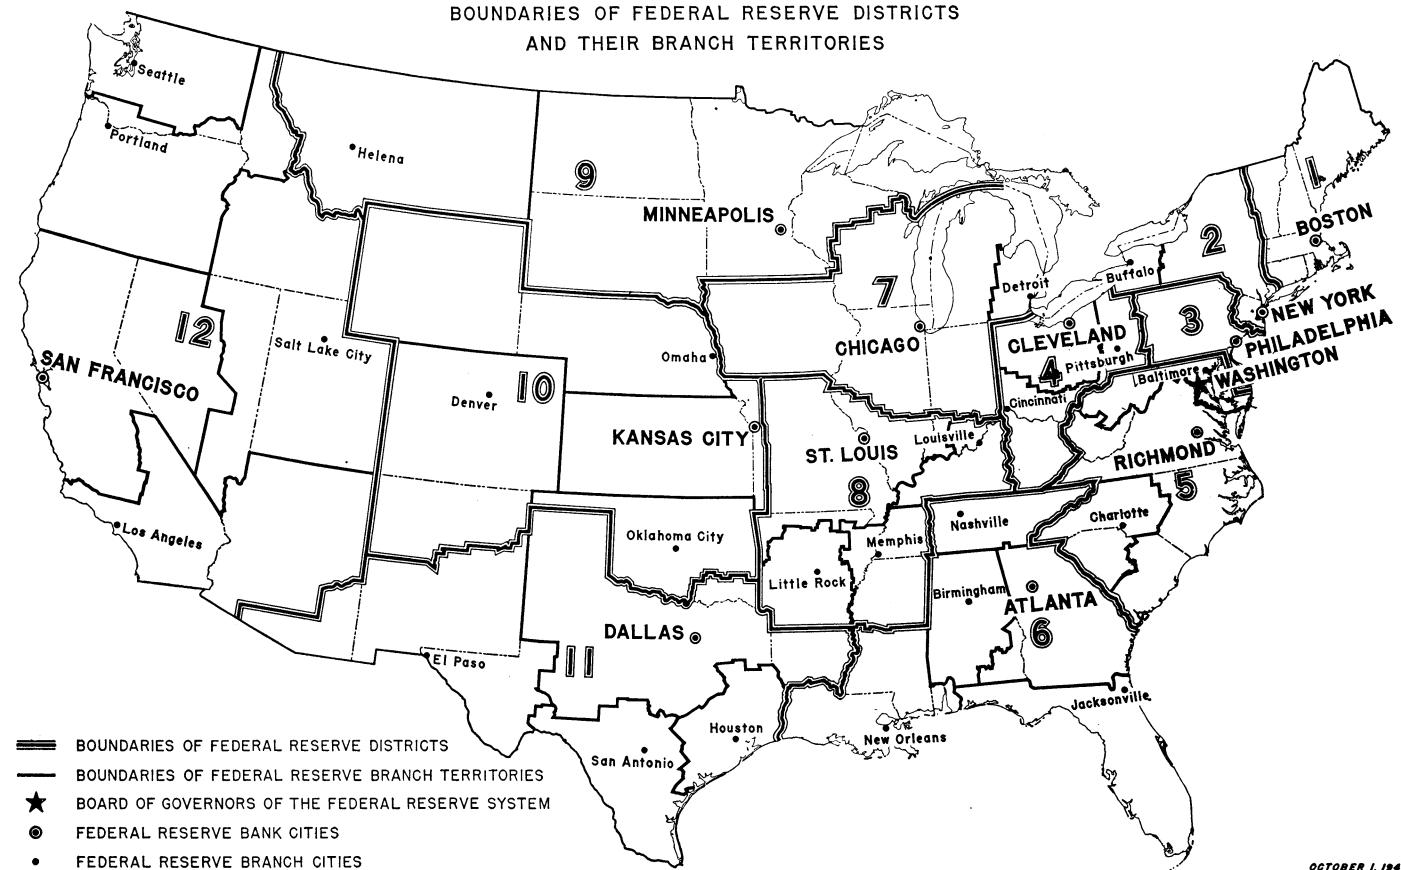

STATE MEMBER BANKS—ASSETS AND LIABILITIES ON DECEMBER 31, 1949, BY FEDERAL RESERVE DISTRICTS

[Amounts in thousands of dollars]
