

ADVANCE - FOR RELEASE A. M. NEWSPAPERS - MONDAY, NOVEMBER 10, 1947

Office of the Comptroller of the Currency
Board of Governors of the Federal Reserve System
Federal Deposit Insurance Corporation

As the result of a cooperative arrangement by the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, and the Federal Deposit Insurance Corporation, a single tabulation of the assets and liabilities of all operating banks in the United States and possessions as of June 30, 1947 has been compiled by the Federal Deposit Insurance Corporation. The figures are being released simultaneously by the three agencies.

The revised all-bank series will take the place of the three series previously compiled and published independently by these agencies. The new series is more complete in coverage but substantially comparable with the old series. Data for national banks, State bank members of the Federal Reserve System, and insured nonmember banks were compiled from official reports of condition by the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, and the Federal Deposit Insurance Corporation, respectively. Data for noninsured banks were compiled by the Federal Deposit Insurance Corporation from individual bank statements, obtained largely through the cooperation of State banking officials. Hereafter, the new all-bank series will be prepared and issued semi-annually by the Federal Deposit Insurance Corporation.

Total assets of all operating banks in the United States and possessions amounted to \$167 billion, and total deposits to \$154 billion, on June 30, 1947. Total assets and total deposits both were about \$2 billion less than the corresponding figure for December 31, 1946.

The decline in deposits occurred principally in interbank accounts and deposits of the United States Government. Total deposits other than interbank and Federal Government accounts were approximately the same in the middle of 1947 as at the beginning of the year.

Loans and discounts of all operating banks were \$39 billion on June 30, an increase of nearly \$3 billion since the beginning of the year; holdings of securities were \$93 billion on June 30, a decline of more than \$3 billion during the first half of the year.

In the accompanying table, assets and liabilities as of June 30, 1947, are given for all operating banks and also for three groups of banks, namely: commercial and stock savings banks, mutual savings banks, and trust companies not regularly engaged in deposit banking. This table covers the United States and possessions. Tabulations by States will be made available in the near future.

SUMMARY OF ASSETS AND LIABILITIES OF OPERATING BANKS IN THE UNITED STATES AND POSSESSIONS, JUNE 30, 1947

(In thousands of dollars)

	All banks	Commercial and stock savings bank	Mutual savings banks	Nondeposit trust companies
