## STATISTICAL SERIES Release No. 887

## 

Individuals sawa about 7.0 bilion in liquid form during the second quarter of $1 \%$, according to the guaxerly estiatas of indiwiduals raving made publie today by the securities and pxchange Comalssion $2 /$ This smount of liquid aving was sbout 300 mlllon more than in the first quarter of this year and about $\$ 200$ million more than fin the second quarter of last year.

Liquid saving comprises saving in the form of curyway and bank deposits, equity in savings and loan associations, insurance and pension reserves, securitiea, znd reduction of mortgage debt and other consumer debt. Saving in monmliguid forms, such as the purchede of new homes and new physical investment by individucls, is also estimated to beve increased slightly in the second quarter of this year.

Individuals' holdings of curreney and bank deposits declined ${ }^{p} 200$ million in the second quarter as compared with a $\$ 3.6$ billion drop in the first quaxtere Individuels? equity in insurance and pension reserves increased $\$ 1.4$ billion, whilo the net addition in security holdings amounted to ${ }^{2} 1.0$ billion Approximately $\$ 400 \mathrm{milicn}$ was added to savings in savings and loan associations. At the same time mortgage dobt of indivicuals increased $\$ 900$ million and consumer debt tncreased by $\$ 700$ milliono

The $\$ 200$ million decline in individuals' holdingo of currency and bank deposite in the second quarter was the result of a decline of $\$ 600 \mathrm{million}$ in demand deposita, offset in part by an increase of $\$ 400$ million in time and savings deposits. Gurency showed little change.

Net additions to insurance and pension reserves in the second quarter of 1949 , as in the first quarter, were at a somewhat lower level than in the last several years as a xesult of smaller additions to government insurance funds, largely social security funds. Individuals' equity in private life insurance increased $\$ 900$ million, about the same as in earlier quarters, but government insurance funds increased only about $\$ 500$ million. The increase in government insurance funds in the corresponding quarter of last year amounted to about $\$ 900$ million.

Security holdings of individuals increased about $\$ 1.0$ billion in the second quarter of 1949; in the first quarter there had been an increase of ${ }^{1} 2.1$ billion Holdings of U. S. savings bonds increased only about $\$ 300$ million in the second quarter, compared with an increase of $\$ 700$ million in the first quarters and holdings of other $U_{\text {. }} S_{0}$ government securities in the second quarter declined $\$ 200$ million, compared with an increase of $\$ 700$ million in the first quartex. Holdings of state and local goverment securities increased $\$ 400$ million, about the same as in the first quartex, and holdings of corporate and other securities increased $\$ 500$ million, somewhat more than in the first quarter, of the $\$ 500$ million increase in corporate and other securities, 400 million was in bonds and $\$ 200$ million was in stocks. Net issues of securities in the second quarter, after retirements, are estimated to have amounted to about $\$ 2.3$ billion, most of which were absorbed by institutions, mainly insurance companies. There was a $\$ 400$ million increase in borrowing by individuals for the purpose of purchasing or carrying securities.

As for the remaining components of liquid saving, mortgage debt showed an increase of about $\$ 900$ million, somewhat more than in the first quarter, and other consumer debt increased about $\$ 700$ million as compared with a reduction in debt of $\$ 1.0$ billion in the first quarter.

1/ In this analysis individual.s' saving includes unincorporated business saving of the types specified in the attached table. Corporate and government saving are not included. The change in individuals' equity in government insurance is, however, considered as part of individuals' saving.

1/ Includes unincorporated ousiness saving of the types specified; does not include corporate or govemment saving. Considerable revisions have been
made in some of the series.
2/ After deducting change in bank loans made for the purpose of purchasing or carring securities.
3/ Includes Armed Forces Leave bonds.
4/ iNortgage debt to institutions on one-to-four family nonfarm dwellings.
5/ Largely attributable to purchases of automobiles and other durable consumers' goods, although including some debt arising from purchases of consumption goods. The other segments of individuals' debt have been allocated to the assets to which they pertain, viz., saving in savings and loan associations, insurance and securities.

6/ Construction of one-to-four family ronfarm dwellings less net acquisition of properties by non-individuals; also includes a small amount of construction by nonprofit institutions.
I Consumer expenditures on durable gords as estimated by the Departinent of Commerce.
NOTE: Figures are rounded and will not necessarily add to totals. Asterisk (*) indicates less than $\$ 50$ million. The foregoing data have been compiled by the Comission from many iifferent sources. Because of the nature of the figures, current data are necessarily estimates and, therefore, are subject to revision.
