The Employment Cost Index for December 2016 is scheduled for release on Tuesday, January 31, 2017, at 8:30 a.m. (EST).

Information in this release will be made available to sensory impaired individuals upon request—Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

BLS news releases, including the ECI, are available through an email subscription service at www.bls.gov/bls/list.htm.

TECHNICAL NOTE

The Employment Cost Index (ECI) measures the change in the cost of labor, free from the influence of employment shifts among occupations and industries. Detailed information on survey concepts, coverage, methods, nonresponse adjustment, and imputation can be found in *BLS Handbook of Methods*, Chapter 8, “National Compensation Measures,” at www.bls.gov/opub/hom/pdf/homch8.pdf.

Sample size

Data for the September 2016 reference period were collected from a probability sample of approximately 28,400 occupational observations selected from a sample of about 6,800 private industry establishments and approximately 8,800 occupational observations selected from a sample of about 1,500 state and local government establishments that provided data at the initial interview.

Standard Errors

To assist users in ascertaining the reliability of Employment Cost Index (ECI) series, standard errors of all current quarter estimates except seasonally adjusted series are made available shortly after publication of the news release. Standard errors provide users a measure of the precision of an estimate to ensure that it is within an acceptable range for their intended purpose. For further information see: www.bls.gov/ncs/ect/ectvar.htm.

Health insurance data

Data from the ECI that provide 12-month percent changes in employer costs for health insurance in private industry are available at www.bls.gov/web/eci/echhealth.pdf.

Historical listings

Historical listings that provide all ECI data are available at www.bls.gov/ect/#tables. Included among these listings is one that provides continuous occupational and industry series. This listing uses the Standard Industrial Classification Manual and Census of Population series through 2005 and the North American Industry Classification System and Standard Occupational Classification from 2006 to the present. It provides the official series from the beginning of the ECI in 1975 through the current quarter. For more information on the criteria used in defining continuous series, see the article published in the *Monthly Labor Review* at www.bls.gov/opub/mlr/2006/04/art2full.pdf.

Employer Costs for Employee Compensation data

The costs per hour worked of compensation components, based on data from the ECI, are published in a separate news release titled "Employer Costs for Employee Compensation" (ECEC). These releases are issued 3 months after the reference period. The ECEC release dates are available at: www.bls.gov/schedule/2016/home.htm. Historical ECEC data are available in summary documents at www.bls.gov/ect/#tables. Since the ECEC is calculated with current employment weights rather than the fixed weights used in computing the ECI, year-to-year changes in the cost levels usually differ from those in the ECI. For additional information on the use of fixed employment weights in computing the ECI, see www.bls.gov/opub/mlr/2016/article/introducing-2012-fixed-employment-weights-for-the-employment-cost-index.htm.
