Retail Instalment Credit at Furniture, Household Appliance, and Jewelry Stores

April 1948

Instalment accounts outstanding at furniture stores showed a small, seasonal gain in April, and remained well above the year-ago level. Household appliance store accounts receivable continued to rise, and at the end of April were four-fifths higher than a year earlier. The amount outstanding at jewelry stores. declined slightly, contrary to the movement from warch to April in the two preceding years. Instalment accounts for this type of outlet were the end of April 1947.

Furniture and jewelry store collection ratios were unchanged in April at 19 per cent. At household appliance stores the rate of collection was slightly lower than in-March, amounting to 31 per cent as compared with 33 per cent in the preceding month.
