DEPARTMET STCRE CREDIT
JUNE 1950
Instalment accounts receivable of department stores rose slightly in June and at the month-end were 43 percent larger than on the corresponding date last year. Collections on instalment accounts declined scmewhat during the month and amounted to 17 percent of accounts outstanding on the first of the month, a ratjo 1 point less than in Liay. At this rate of repayment instalment accounts would be outstanding about ten and one-half months, more than two menths longer than a year earlier.

Charge-accounts outstanding at the end of June were unchanged from the month-ago level, but were 4 percent above the amount outstanding a year ago. Collections on charge accounts increased slightly during the morith, and the ratio of collections to accounts receivable on the first of the month . declined $l$ point to $5 l$ percent. At the prevailing rate of repayments, charge accounts would be outstanding about 58 days, about the same as in the corresponding month of 1949.

Both cash and credit sales of department stores showed the customary seasonal declines in June. Instalment and charge account sales registered declines of 9 and 4 percent, respectively, while cash sales were 4 percent belcw last month. Instalment sales were 21 percent above those of a year earlier while charge account sales were up 4 percent. Cašh`sales continued scmewhat below the level of the previous year.
