Addition to the Consumer Credit (G.19) release

Starting with December 7th, 2015, the G.19 statistical release will include an additional series for 60-month new car loan interest rates at commercial banks. Both the 48- and 60-month new car loan interest rates are estimated using data collected in the *Quarterly Report of Interest Rates on Selected Direct Consumer Installment Loans* (FR 2835). The series extends back to 2006:Q3, and can be accessed through the data download program (DDP).
