1. Unused commitments are the amounts still available for lending under official promises to lend that are expressly conveyed to the bank's customers orally or in writing, usually in the form of a formally executed agreement signed by one of the bank's officers.

2. Commitments for term loans are those for loans with an original maturity of more than one year.

3. Revolving credits are commitment agreements whereby the borrower may draw and repay loans at will with no repayment penalty and under which the commitment rebounds by an equal amount after a takedown has been repaid.

4. Other commitments are expressions of willingness to lend, other than for term loans and revolving credits, that are made known to the customer

and are characterized by detailed formal agreements specifying the terms and conditions under which a loan is to be made.

5. Confirmed lines of credit represent general expressions of willingness to lend, other than for term loans or revolving credits, that are made known to the customer but are not characterized by detailed formal agreements specifying the terms and conditions under which a loan is to be made.

NOTE: Included in this series are 122 weekly reporting banks accounting for approximately 85 percent of all commercial and industrial loans, and 95 percent of all nonbank financial loans. As of February 1981, several banks accounting for less than 1/2 percent of unused commitments were dropped from the reporting panel. Individual items may not add to totals due to rounding.
