1. Unused commitments are the amounts still available for lending under official promises to lend that are expressly conveyed to the bank's customers orally or in writing, usually in the form of a formally executed agreement signed by one of the bank's officers.
2. Commitments for term loans are those for loans with an original maturity of more than one year.
3. Revolving credits are commitment agreements whereby the borrower may draw and repay loans at will with no repayment penalty and under which the commitment rebounds by an equal amount after a takedown has been repaid.
4. Other commitments are expressions of willingness to lend, other than for term loans and revoiving credits, that are made known to the customer and are characterized by detailed formal agreements specifying the terms and conditions under which a loan is to be made.
5. Confirmed lines of credit represent general expressions of willingness to lend, other than for term loans or revolving credits, that are made known to the customer but are not characterized by detailed formal agreements specifying the terms and conditions under which a loan is to be made.

NOTE: Respondents number 115 commercial banks, reduced by mergers from 121 since November 1984. These mergers have not affected the consistency of the historical series.

Individual items may not add to totals due to rounding.
*A break in series caused declines of $\$ 2.5$ billion in total loans, $\$ 0.4$ billion in term loans, $\$ 1.5$ billion in revolving credit, and $\$ 0.6$ billion in confirmed lines. Historical data have not been revised.
