## (For Immediate Release)

February 16, 1955

## CHANGES IN COMMERCIAL AND INDUSTRIAL LOANS BY INDUSTRY

Net increases of \$21 million in loans to manufacturers of textiles, apparel, and leather products, \$12 million to manufacturers of metals and metal products, and \$31 million to unclassified borrowers were the principal factors in the \$42 million increase in commercial, industrial, and agricultural loans at weekly reporting member banks during the week ended February 9. Partly offsetting decreases included \$17 million in loans to manufacturers of food, liquor, and tobacco products and \$12 million to commodity dealers.

Most of the increase in loans to manufacturers of textiles, apparel, and leather products was in the New York and Boston Districts, but there were smaller increases in eight of the other districts. Following eight weeks of consecutive decreases, loans to the wholesale and retail trade increased \$3 million during the week.

Changes in loans during the week and since the year-end are shown below; the third column shows the changes during the comparable period last year:

|                                      | Cumulative since year-end |                          |               |  |  |  |  |  |  |
