H.12 COMMERCIAL AND INDUSTRIAL LOANS OUTSTANDING BY INDUSTRY

Commercial and industrial loans increased a net of \$754 million at weekly reporting member banks during the week ended December 16. All categories, except manufacturers of textiles, apparel, and leather products and "other" nondurable goods, showed net increases reflecting, at least in part, quarterly tax date needs.

The principal net increases were \$127 million in loans to manufacturers of food, liquor, and tobacco products, \$102 million to transportation, communication, and other public utilities, \$76 million to manufacturers of chemicals and rubber products, \$75 million to "all other" types of business concerns, \$54 million to manufacturers of machinery, \$44 million each to retail trade and to the construction industry, and \$105 million to unclassified borrowers.

The outstanding loans and changes during the week and since mid-year are shown below; fourth column shows the changes during the comparable period last year.
