## statistical release

### H.12(c) Release to be Discontinued

This will be the final issue of the H.12(c) release to be published. A revised report of commercial and industrial loans by industry will be issued beginning with data for January 31, 1979. The new report will show domestic commercial and industrial loans as of the last Wednesday of each month at commercial banks that had \$1 billion or more total assets in domestic offices as of December 31, 1977. This new report will contain a line showing term loans included in total domestic commercial and industrial loans, but will not show a breakdown by business of borrower. While this reporting panel will include fewer banks than formerly, the share of total commercial and industrial loans covered is likely to change little due to substitution of some large banks that did not previously report.

Further information about the revision will accompany the January 31 release, including a statement concerning availability of estimated back data for the new panel.

### COMMERCIAL AND INDUSTRIAL TERM LOANS OUTSTANDING BY INDUSTRY

Total commercial and industrial term loans were \$55,442 million as of December 27, 1978. This was an increase of \$7,976 million over the comparable data a year ago and an increase of \$737 million from the last Wednesday in November 1978.

The principal net increases were \$171 million in loans for transportation equipment, \$168 million in loans for other public utilities and \$166 million in loans for services.

The total of all business term loans on December 27, 1978 represents 48 percent of business outstanding at large commercial banks in the series.
