BANK DEBITS

Debits to individual account of the banks belonging to 154 of the country's leading Clearing House Associations for the week ending September 1 totaled 8,443 millions, an increase of 457 millions for the week. With the exception of Pittsburgh, Detroit, San Francisco and Los Angeles all the important centers report larger debits than the week before, most of the increase, viz. 419 millions, being shown for New York City. Aggregate debits for the corresponding week in 1919 cover 5 days' business only and were 1,528 millions below the total for the week under review.

Total debits for the 35 weeks of the present year were 321,945 millions, compared with 284,624 millions for the same period last year. Of the present year's total the share of the New York banks was about 50 per cent compared with about 53.7 per cent last year.
