STATEMENT FOR THE PRESS

Released for publication Sunday morning, March 20; not earlier.

BANK DEBITS

Aggregate debits to individual account, as reported by 157 of the country’s leading clearing house centers for the week ending March 16, 1921, were 8,552 millions, compared with 7,450 millions for the week before, the increase for the week amounting to 1,102 millions, or about 15 per cent. All of the leading centers, except New Orleans, Dallas, and Los Angeles, report larger figures than for the preceding week. This increase reflects the heavy volume of income tax payments.

As compared with the corresponding week in 1920, debits to individual account for the week under review were smaller by 1,774 millions, or 17 per cent, reduced totals being reported for all the leading centers.
