Federal Reserve Board,  
August 5, 1922.

BANK DEBITS

Volume of business for the week ending August 2 was \$8,809,000 marking an increase of \$565,000,000, or about 7 per cent over the total of \$8,244,000,000 reported for the preceding week. Increases are shown for the leading centers, except Boston, Cincinnati, Detroit and Milwaukee. These increases are accounted for largely by the considerable volume of end-of-month transactions effected during the week. The decline of 12 per cent in the volume of business reported from Boston is in marked contrast to the general trend.

As compared with the week ending August 3, 1921, the volume of business for the week under review shows an increase of \$914,000,000, or about 12 per cent, larger figures being reported for all the leading centers, except Baltimore, St. Louis, Kansas City and Dallas. The increase for New York City alone amounted to \$699,000,000, or about 17 per cent, constituting more than three-fourths of the total increase for all reporting centers.

The volume of business is measured by debits to individual accounts reported to the Federal Reserve Board for banks in leading centers. The total number of centers reporting this week is 246, of which 164 are included in the summary by Federal reserve districts.
