

STATEMENT FOR THE PRESS

Released for publication
Sunday morning, April 15;
not earlier.

St. 3464.
Federal Reserve Board,
April 14, 1923.

BANK DEBITS

Bank debits for the week ending April 11 totaled \$9,513,000,000, marking a decrease of \$582,000,000, or of about 6 per cent, from the total of \$10,095,000,000 reported for the preceding week with its large volume of end-of-month and end-of-quarter settlements. Smaller figures are shown for all the leading Eastern centers. In the Middle West, Cleveland, Cincinnati, Detroit and Milwaukee show larger totals than the week before. Larger figures for the week are also reported by San Francisco and Seattle.

As compared with the corresponding week in 1922, aggregate debits for the report week show an increase of \$797,000,000, or of about 9 per cent. Larger figures than last year are shown for all the larger centers, though the increase in New York City was much below the average.

Debits to individual accounts are reported to the Federal Reserve Board by banks in leading centers. The total number reporting this week is 253, of which 244 are included in the summary by Federal reserve districts.
