## BANK DEBITS

Bank debits for the week ending May 2 totaled \$11,051,000,000, marking an increase of \$1,592,000,000, or of 16.8 per cent, over the total of \$9,459,000,000 for the preceding week. The total for the report week is the largest since the week ending January 3 and reflects the usual end-of-month swell in the volume of debits to depositors' accounts. Larger figures are shown for all the leading centers, except Pittsburgh, Atlanta, Detroit, Portland and Seattle. For New York City the increase was \$967,000,000, or over 60 per cent of the total increase shown for the week.

As compared with the corresponding week for 1922 aggregate debits for the week under review show an increase of \$742,000,000, or of 7.2 per cent. An increase of over 43 per cent is shown for Los Angeles and increases of over 30 per cent by Detroit, Cleveland and Kansas City. Smaller relative increases are shown for all other important centers, except New York City and Washington, D. C.

Debits to individual accounts are reported to the Federal Reserve Board for banks in clearing house centers. The total number of centers covered by this week's report is 252, of which 243 are included in the summary by Federal reserve districts.
