STATEMENT FOR THE PRESS

Released for publication
Sunday morning, August 26; not earlier.

Federal Reserve Board,
August 25, 1923.

BANK DEBITS

Bank debits for the week ending August 22 aggregated $8,182,000,000 or about 10 per cent above the total of $7,414,000,000 reported for the preceding week. The smaller figures for the week ending August 15 were due in part at least to the observance of August 10 as a holiday by the banks in most of the districts. All of the more important centers, except Cleveland and St. Paul, reported larger figures than for the preceding week. The largest relative increase for the week was reported for Detroit. The increase for New York City was about $500,000,000 or about 16 per cent. Substantial increases were also reported for Boston, Philadelphia, San Francisco, and Los Angeles.

As compared with the corresponding period of last year, total debits for the week under review show an increase of $433,000,000 or 6 per cent. All of the larger centers report increases over last years figures except New York City and New Orleans.

Debits to individual accounts were reported to the Federal Reserve Board for banks in 249 centers of which 245 are included in the summary by Federal Reserve districts.
