## BANK DEBITS AND DEPOSIT TURNOVER

For immediate release  
September 16, 1965

Bank debits to demand deposit accounts (except interbank and U. S. Government accounts) for the month of August, of banks in 225 Standard Metropolitan Statistical Areas and other centers, were \$5,146.8 billion at a seasonally adjusted annual rate. This is 2.9 per cent lower than the previous month and 12.4 per cent higher than August 1964.

New York area banks reported a decrease of 6.7 per cent from July 1965 and an increase of 12.1 per cent from August a year ago. The 6 Other Centers classification reported a slight decrease from July and an 11.7 per cent increase from August of last year. The 224 and 218 Centers classifications each showed little change from the previous month but posted 12.6 and 13.1 per cent increases, respectively, from the same month a year ago.

Turnover of demand deposits in August continued the rather erratic movement which has been evident for the past five months. Slight increases were posted in three of the five national classifications, with the greatest increase occurring in the 218 Centers classification. The deposit turnover rate at New York area banks declined to a level of 99.4.
