THE NEW STATISTICAL RELEASE H.8

With this issue the new H.8, Assets and Liabilities of Commercial Banks in the United States, is being introduced. It incorporates key items from three statistical releases that are being discontinued: the previous version of the H.8, Assets and Liabilities of Insured Domestically Chartered and Foreign-Related Institutions; the G.7, Loans and Securities at Commercial Banks; and the G.10, Major Nondeposit Funds of Commercial Banks.

Data on the new H.8 have been benchmarked to the September 1993 call report. Data on the previous version of the H.8 were benchmarked to the June 1993 call report.

The new H.8 contains monthly and weekly balance sheets for all commercial banks, domestically chartered banks, small domestic banks, large domestic banks, and foreign-related institutions. The data are adjusted for known reclassifications between balance sheet items and are presented both seasonally adjusted and not seasonally adjusted.

For small and large domestic banks, the data are presented both as reported (actual levels) and after adjustment for mergers between banks in the small and large groups.

The H.8 will be released each Friday around 4:30 p.m. Historical data are available from the Publications Section, Mail Stop 127, Federal Reserve Board, Washington, D.C. 20551, telephone (202) 452-3245.
