MATURITY DISTRIBUTION OF OUTSTANDING NEGOTIABLE TIME CERTIFICATES OF DEPOSIT

On July 26, 1967 large commercial banks reported $\$ 19.7$ billion in negotiable certificates of deposit (CD's) outstanding in denominations of $\$ 100,000$ or above. The amount represented an increase of $\$ .5$ billion over the total reported for the previous monthly survey on June 28. The increase was particularly heavy for the group of largest banks.

The months of August and September were nearly identical in amounts maturing, at 20.5 and 20.2 per cent, respectively. For the June survey 27.3 per cent matured before the end of July, while for the July survey 24.5 per cent matured before the end of August. In the current survey certificates totalling over $\$ 1,250$ million matured on the September 11 and September 15 tax and dividend dates.

The average maturity of all outstanding CD's, at 3.6 months, was up slightly from June.

The distribution of maturities by bank size is shown on the back of thịs elease.

Outstanding Negotiable Time Certificates of Deposit Large Commercial Banks, July 26, 1967
