CAPITAL MARKET DEVELOPMENTS

New capital volume small last week - Only one large issue was publicly offered for new capital during the week ending July 8-- a 5 million dollar State and local government offering. This week 161 million dollars of State and local issues and one 30 million dollar corporate offering were scheduled for flotation.

Included in this week's State and local schedule however, was 125 million dollars of New York State Thruway bonds, the only bid for which was rejected on July 12 by the State Comptroller. It was reported that "the substantial change in the municipal bond market since this financing was originally announced would have the effect of increasing the cost of financing the thruway. The Comptroller has therefore decided to postpone the financing until a more advantageous time." No indication was given as to the timing of another offering. The sole bid for the largest tax-exempt issue of the year would have produced a net interest cost of 2.7892 per cent. Maturity of the offering averaged about 35 years.

The scheduled offering was an addition to previous issues which were State-guaranteed and rated Aaa by Moody's. The yield on Moody's 20-year municipal Aaa bonds has risen from 2.07 on June 10, when the New York financing was announced, to 2.19 for the week ending July 8, reflecting the build-up in the volume of expected new issues and the high level of dealers' inventories.

Bond yields - Yields on outstanding State and local government Aaa and Baa bonds rose 5 and 3 basis points respectively during the week ending July 8. Treasury obligation yields increased one basis point.

No change occurred in the corporate or State and local revenue bond yields.

Stock prices - Stock prices, as measured by the SEC index of 265 common stocks, increased 3.4 points to a new high of 257.0 last week.

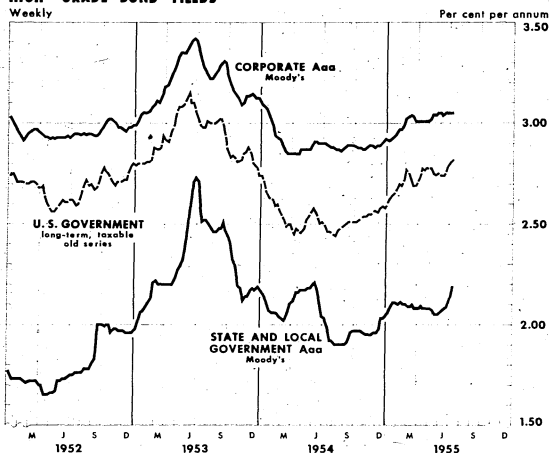

Little change in prices was indicated by daily figures for the first two days of this week.

More detailed information concerning recent capital market developments will be found in the attached exhibits.
