CAPITAL MARKET DEVELOPMENTS

Activity in the capital market was at a low ebb this week with no immediate prospect for an increased volume of offerings. State and local governments offered \$12 million of large security issues during the week ending January 6. This week \$62 million of such issues are scheduled for flotation. There were no large corporate offerings issued last week, nor are any expected this week.

Bond yields - State and local government revenue bond yields dropped five basis points during the week ending January 6. Changes in yields on other outstanding bonds were mixed but more moderate as can be seen in the attached exhibits.

U. S. Government long-term bond yields decreased moderately on Tuesday of this week according to daily figures.

Stock prices - Stock prices, as measured by the SEC index of 265 common stocks, decreased slightly to 268.8 during the week ending January 6 in a continued moderate volume of trading. Prices dropped moderately on Monday and Tuesday of this week as indicated by daily indexes.

More detailed information concerning recent capital market developments is presented in the attached exhibits.

Business Finance and Capital Markets Section,
Division of Research and Statistics,
Board of Governors of the Federal Reserve System.
