H.14

June 21, 1956

CAPITAL MARKET DEVELOPMENTS

The volume of publicly offered securities was moderate during the week ending June 15, but will be quite large this week. State and local governments sold large bond issues totaling \$91 million last week and an \$18 million corporate preferred stock issue was floated. This week, ending June 22, State and local governments are expected to offer large issues totaling \$204 million, including the \$166 million Grant County Public Utility District offering, and corporate issues amounting to \$43 million are scheduled for sale.

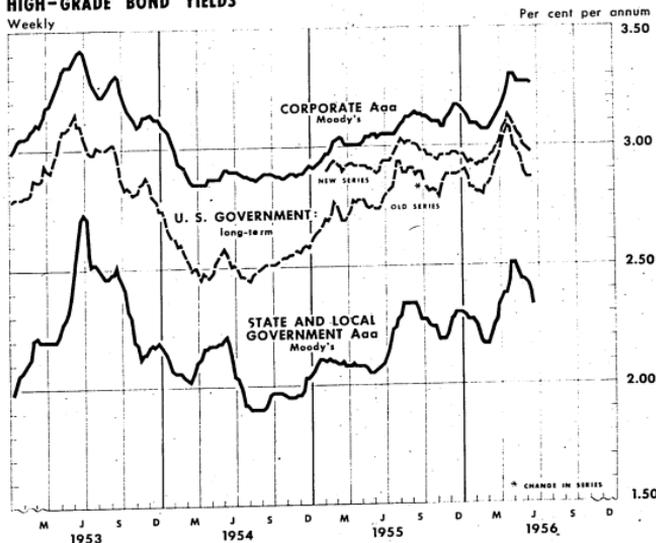

Bond yields - There were few changes in yields on outstanding bonds last week. Corporate Baa and U. S. Government (old series) bond yields were stable, while yields on other major categories of bonds declined. Yields on newly offered corporate bonds appear to have been stable. A 30-year, first mortgage, electric utility bond issue was reoffered at 3.52 per cent on June 8, about the same yield as on a similar offering of late May.

Stock prices - Common stock prices, as measured by the SEC index of 265 stocks, increased 7.2 points during the week ending June 15, closing at 277.0. At this level stock prices are still 5 per cent below the 1956 high, however. Daily data indicate little change in prices through Wednesday of this week.

^{1/} Weekly average of daily figures. Average term of bonds included is 25-26 years.

^{2/} Weekly averages of daily figures. The old series includes fully taxable, marketable 2 1/2 per cent bonds due or first callable after 12 years through September 1955, and those due or callable in 10-12 years thereafter; the average term to first call of the bonds included declined from 14 years in early 1953 to 11 1/2 years in early 1956. The new series is comprised of the 3 per cent bond of 1955 and the 3 1/4 per cent bond of 1978-83.

^{3/} Thursday figures. Only general obligation bonds are included; average term is 20 years.

Note.--Highs and lows are for individual series and may be on different dates for different series.

*--Single observation, not an average.

1/ Covers only 30-year first mortgage bonds, as reported in Moody's Bond Survey. Except where indicated, the actual yield figure and the amount above seasoned yields are averages of offerings during the indicated period and of the differences between these new offering yields and yields on seasoned issues of similar quality for the same day. The number of new issues included in the monthly averages varies from 2 to 4 except for October 1954 when 6 A-rated issues were included. Average maturity for the seasoned issues varies from 26 to 28 years.
