Not for Publication DECONTROLLED AFTER SIX MONTHS

H.14

February 7, 1957

CAPITAL MARKET DEVELOPMENTS

Large public security offerings issued for new capital last week totaled \$106 million for corporations, including expiration of subscription rights for one large issue, and \$76 million for State and local governments. This week, corporations are expected to market issues with aggregate proceeds of \$74 million. State and local government offerings amounting to \$76 million and a Canadian bond issue for \$35 million are also scheduled for sale.

Recent declines in long-term interest rates appear to be encouraging a rising volume of State and local government security flotations. The substantial increase in issues scheduled for offering later this month has raised our February estimate of State and local government bond sales by \$125 million to a total of \$525 million.

Bond yields - Bond yields declined last week for all categories of outstanding bonds, except those for corporate Baa's which remained stable.

Offering yields on new corporate issues also declined. A new Aa-rated, 30-year, first mortgage electric utility issue for \$12 million was reoffered this week at a yield of 4.29 per cent--11 basis points below that for the last comparable issue, an offering made on January 24.

Stock prices - Stock prices, as measured by the SEC index of 265 common stocks declined 1.9 points last week, closing at 266.3 on February 1. The volume of trading declined, averaging 1.8 million shares a day. Daily figures through Wednesday of this week indicate a sharp decline in prices on Tuesday in increased activity, with little change on Wednesday.

More detailed information concerning recent capital market developments is presented in the attached exhibits.

^{1/} Weekly average of daily figures. Average term of bonds included is 25-26 years.

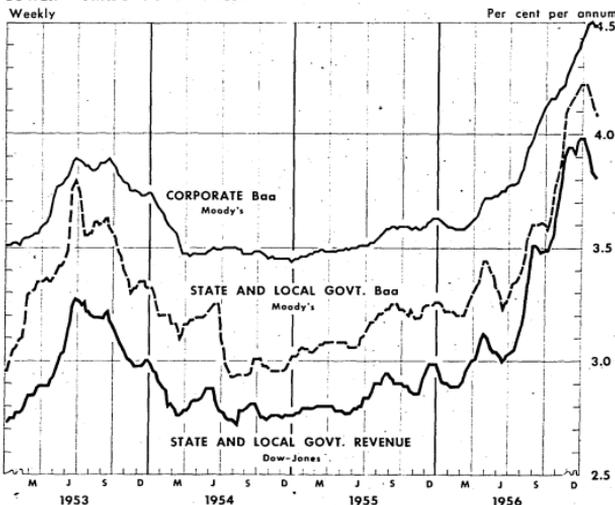

^{2/} Weekly averages of daily figures. The old series includes fully taxable, marketable 2 1/2 per cent bonds due or first callable after 12 years through September 1955, and those due or callable in 10-12 years thereafter; the average term to first call of the bonds included declined from 14 years in early 1953 to 11 1/2 years in early 1956. The new series is comprised of the 3 per cent bond of 1955 and the 3 1/4 per cent bond of 1978-83.

^{3/} Thursday figures. Only general obligation bonds are included; average term is 20 years.

Note.—Highs and lows are for individual series and may be on different dates for different series.
