June 4, 1958.

CAPITAL MARKET DEVELOPMENTS

Large public security issues for new capital during the week ending May 29 totaled \$65 million for corporations and \$158 million for State and local governments. The calendar for this week includes corporate offerings amounting to \$100 million and State and local government issues totaling \$41 million.

Bond yields - Yields remained stable last week for all categories of outstanding bonds, except those for Baa-rated corporate bonds, which declined slightly.

Yields on new corporate issues also show little change. A new Aa-rated, first and refunding mortgage bond issue was offered to investors this week to yield 3.85 per cent -- the same as for comparable offerings made on May 20 and May 21.

Stock prices - Stock prices, as measured by Standard and Poor's index of 500 common stocks, increased last week to 44.09, slightly above the previous high for the year. Prices continued to increase the early part of this week, closing at 44.46 on Tuesday.

More detailed information concerning recent capital market developments is presented in the attached exhibits.

n.a.--Not available.

1/ Standard and Poor's composite index of 500 common stocks, weekly closing prices, 1941-43-10. Monthly data are averages of daily figures rather than of Fridays' only. Highs and lows are for Friday's data only.

2/ Averages of daily trading volume on the New York Stock Exchange.

3/ Standard and Poor's composite stock yield based on Wednesday data converted to weekly closing prices by Federal Reserve.

4/ End of month figures for member firms of the New York Stock Exchange which carry margin accounts; excludes balances secured by U. S. Government obligations.

5/ Wednesday figures for weekly reporting member banks. Excludes loans for purchasing or carrying U. S. Government securities at banks in New York and Chicago. Weekly reporting banks account for about 70 per cent of loans to others. For further detail see Bulletin.

Note.--Highs and lows are for individual series and may be on different dates for different series.

*--Single observation, not an average.

1/ Covers only 30-year first mortgage bonds, as reported in Moody's Bond Survey. Except where indicated, the actual yield figure and the amount above seasoned yields are averages of offerings during the indicated period and of the differences between these new offering yields and yields on seasoned issues of similar quality for the same day. Average maturity for the seasoned issues varies from 26 to 28 years.

2/ Provides for a 5-year period during which issue may not be called for refunding at a lower coupon rate. Monthly averages so marked include one or more issues with such a provision. Other issues have no such provision.
