Member Bank Deposits and Reserves

1959-1979

Member bank deposits, reserves and monetary base have been revised to reflect new seasonal factors based on one additional year of data (1979). Historical data, weekly and monthly, seasonally adjusted and not seasonally adjusted, are attached.

Regulatory changes in member bank reserve requirements, associated with changes in Regulations D and M, cause discontinuities in the actual aggregate reserves and monetary base series. Because of these discontinuities, growth rates derived from the actual series over periods including breaks due to changes in reserve requirements do not provide meaningful measures of the growth of reserves and the monetary base. For purposes of calculating growth rates and for other analytical uses, breaks in these series must be removed. Tables 5 and 6 show aggregate reserve and monetary base data adjusted for breaks due to changes in Regulations D and M.

There are many statistical methods available for removing breaks in these series. The Board has adopted what is essentially a multiplicative method that adjusts historical data as if current reserve requirements were in effect for all past periods. This method requires that a new historically adjusted series be constructed, reflecting the latest reserve requirements, each time there is a change in Regulations D or M. The adjusted series exclude marginal reserves and reserves held against Eurodollar borrowings, commercial paper and other minor items.

Current data, monthly and weekly, actual and adjusted basis, are published on the Board's H.3 release, "Aggregate Reserves and Member Bank Deposits," and weekly seasonally adjusted data are shown on the H.9 release, "Weekly Summary of Banking and Credit Measures." Monthly seasonally adjusted data are also published in the Federal Reserve Bulletin.

3-24-80

I.

Description of Break Adjustment Procedures

Historical aggregate reserves and monetary base series adjusted for changes in Regulation D and M are constructed in the following manner:

1. For the week in which reserve requirements against deposits, net demand or time and savings, change due to a change in Regulation D, required reserves are calculated on both the old and the new reserve requirement basis for the type of deposits affected.
2. The ratio of "new" required reserves to "old" required reserves for the particular deposit type is calculated and this ratio is applied to actual required reserves for that deposit type for all weeks prior to the change in Regulation D.
3. As the ratio is applied back through time, it is adjusted for earlier breaks in series due to changes in Regulation D by multiplying the current ratio by the ratio calculated at the time of the previous change in Regulation D. (This procedure is carried back, weekly, to January 1959; monthly averages are derived from prorations of the weekly data.)
4. Adjustments for breaks in series due to changes in Regulations D and M affecting other reservable liabilities (i.e., commercial paper, finance bills, Eurodollar borrowings) and marginal reserve requirements are made by subtracting the sum of such required reserves from the actual series.

## II.

- 1/ Effective September 1, 1960, the reserve requirement of central reserve city banks against their net demand deposits was reduced from 18 per cent to 17-1/2 per cent. This action reduced required reserves approximately \$120 million.
- 2/ Effective November 24, 1960, the reserve requirement of country banks against their net demand deposits was increased from 11 per cent to 12 per cent. This action increased required reserves approximately \$380 million.
- 3/ Effective December 1, 1960, the reserve requirement of central reserve city banks against their net demand deposits was reduced from 17-1/2 per cent to 16-1/2 per cent. This action reduced required reserves approximately \$250 million.
- 4/ Effective October 25, 1962, the reserve requirement of reserve city banks against their time deposits was reduced from 5 per cent to 4 per cent. This action reduced required reserves approximately \$410 million.
- 5/ Effective November 1, 1962, the reserve requirement of country banks against their time deposits was reduced from 5 per cent to 4 per cent. This action reduced required reserves approximately \$360 million.
- 6/ Effective July 14, 1966, reserve requirement of reserve city banks against time deposits (other than savings deposits) in excess of \$5 million was increased from 4 per cent to 5 per cent. This action increased required reserves approximately \$350 million.
- 7/ Effective July 21, 1966, reserve requirement of country banks against time deposits (other than savings deposits) in excess of \$5 million was increased from 4 per cent to 5 per cent. This action increased required reserves approximately \$70 million.
- 8/ Effective September 8, 1966, reserve requirement of reserve city banks against time deposits (other than savings deposits) in excess of \$5 million was increased from 5 per cent to 6 per cent. This action increased required reserves approximately \$370 million.
- 9/ Effective September 15, 1966, reserve requirement of country banks against time deposits (other than savings deposits) in excess of \$5 million was increased from 5 per cent to 6 per cent. This action increased required reserves approximately \$75 million.
- 10/ Effective March 2, 1967, reserve requirement of all member banks against savings deposits and the first \$5 million of time deposits was reduced from 4 per cent to 3-1/2 per cent. This action reduced required reserves approximately \$425 million.

### III.

- 11/ Effective March 16, 1967, reserve requirement of all member banks against savings deposits and the first \$5 million of time deposits was reduced from 3-1/2 per cent to 3 per cent. This action reduced required reserves approximately \$425 million.
- 12/ Effective January 11, 1968, reserve requirement of reserve city banks against net demand deposits in excess of \$5 million was increased from 16-1/2 per cent to 17 per cent. This action increased required reserves approximately \$360 million.
- 13/ Effective January 18, 1968, reserve requirement of country banks against net demand deposits in excess of \$5 million was increased from 12 per cent to 12-1/2 per cent. This action increased required reserves approximately \$190 million.
- 14/ Effective April 17, 1969, reserve requirement of all member banks against net demand deposits was increased 1/2 percentage point. This action increased required reserves approximately \$660 million.
- 15/ Effective October 16, 1969, a 10 per cent marginal reserve requirement was established on certain foreign borrowings, primarily Euro-dollars, by member banks and on the sale of assets to their foreign branches. This action increased required reserves approximately \$415 million.
- 16/ Effective October 1, 1970, reserve requirement of all member banks against time deposits (other than savings deposits) in excess of \$5 million was reduced from 6 per cent to 5 per cent. At the same time, a 5 per cent reserve requirement was imposed against funds obtained by member banks through the issuance of commercial paper by their affiliates. This action reduced required reserves approximately \$500 million (net).
- 17/ Effective January 7, 1971, the reserve percentage required to be maintained against certain foreign borrowings, primarily Euro-dollars, by member banks, and the sale of assets to their foreign branches was raised from 10 per cent to 20 per cent. This action had little effect on required reserves.
- 18/ Effective November 9, 1972, Regulations D and J were revised to (1) adopt a system of reserve requirements against demand deposits of all member banks based on the amount of such deposits held by a member bank, and (2) to require banks--member and nonmember--to pay cash items presented by a Federal Reserve Bank on the day of presentation in funds available to the Reserve Bank on that day. These changes reduced required reserves approximately \$2.5 billion, effective November 9; \$1.0 billion, effective November 16; and increased required reserves \$300 million, effective November 23.
- 19/ Effective June 21, 1973, the Board amended its Regulation D to establish a marginal reserve requirement of 8 per cent against certain time deposits and to subject to the 8 per cent reserve requirement certain deposits exempt from the rate limitations of the Board's Regulation Q. In addition, reserves against certain foreign branch deposits were reduced from 10 per cent to 8 per cent. These changes had little effect on required reserves.

IV.

- 20/ Effective July 12, 1973, reserve requirements were imposed against finance bills. This action increased required reserves approximately \$90 million.
- 21/ Effective July 19, 1973, reserve requirement against all net demand deposits, except the first \$2 million was increased 1/2 percentage point. This action increased required reserves approximately \$760 million.
- 22/ Effective October 4, 1973, the marginal reserve requirement against certain time deposits was increased from 8 per cent to 11 per cent. This action increased required reserves approximately \$465 million.
- 23/ Effective December 27, 1973, the marginal reserve requirement against certain time deposits was reduced from 11 per cent to 8 per cent. This action reduced required reserves approximately \$360 million.
- 24/ Effective September 19, 1974, the marginal reserve requirement against time deposits in denomination greater than \$100,000 and more than 4 month maturity was eliminated. This action reduced required reserves approximately \$510 million.
- 25/ Effective December 12, 1974, reserve requirement against all time deposits with an original maturity of six months or longer was reduced from 5 per cent to 3 per cent; reserve requirement against all time deposits with an original maturity of less than six months was increased from 5 to 6 per cent; and reserve requirement against net demand deposits over \$400 million was reduced from 18 per cent to 17-1/2 per cent. In addition, the 3 per cent marginal reserve requirement on large certificates of deposit with an initial maturity of less than four months was removed. This action reduced required reserves approximately \$710 million.
- 26/ Effective February 13, 1975, reserve requirement against all categories of net demand deposits up to \$400 million was reduced by one-half of 1 percentage point, and reserve requirement against net demand deposits of more than \$400 million was reduced 1 percentage point. This action reduced required reserves approximately \$1,065 million.
- 27/ Effective May 22, 1975, reserve requirement against foreign borrowings of member banks, primarily Euro-dollars, was reduced from 8 per cent to 4 per cent. This action reduced required reserves approximately \$80 million.
- 28/ Effective October 30, 1975, reserve requirement against member bank time deposits with an original maturity of four years or more was reduced from 3 per cent to 1 per cent. This action reduced required reserves approximately \$360 million.

V.

- 29/ Effective January 8, 1976, reserve requirement on time deposits maturing in 180 days to 4 years was reduced from 3 per cent to 2-1/2 per cent. This action reduced required reserves by approximately \$500 million.
- 30/ Effective December 30, 1976, reserve requirement against net demand deposits up to \$10 million was reduced by 1/2 percentage point, and reserve requirement against net demand deposits over \$10 million was reduced by 1/4 percentage point. This action reduced required reserves by approximately \$550 million.
- 31/ Effective November 2, 1978, a supplementary reserve requirement of 2 percentage points was imposed on time deposits of \$100,000 or more. This action increased required reserves approximately \$3.0 billion.
- 32/ Effective October 11, 1979, a marginal reserve requirement of 8 percent was imposed on "managed liabilities" of member banks, Edge corporations, and U.S. agencies and branches of foreign banks above a base average for the two weeks ending September 26, 1979. Managed liabilities include large time deposits (\$100,000 and over with maturities of less than one year), repurchase agreements against U.S. government and federal agency securities, Eurodollar borrowings, and federal funds borrowings from a nonmember institution. On October 25, required reserves and reserves held by Edge Corporations were included in member bank reserves. (Previously reserves held by these institutions were recorded as "other deposits" by Federal Reserve banks.) These actions raised required reserves approximately \$355 and \$320 million, respectively.
