STATEMENT FOR THE PRESS.

April 1, 1916.

The Federal Reserve Board made public today its weekly bank statement as at close of business on March 31, 1916. The statement indicates decreases of 6.9 millions in the combined gold reserves and of 9.1 millions in the total cash reserves of the banks, largely the result of substantial net withdrawals of bank deposits from the Boston and New York banks. Chicago reports a decrease of over 1 million in its total reserve accompanied by increases of 3.2 millions in the amount due from other Federal reserve banks, and of 2.1 millions in total deposits. The Cleveland bank reports a decrease of 1.3 millions in deposits. Its reserve shows but a slight decrease, while the amount of its investments decreased almost 1 million dollars during the week.

There is but little change shown in the amount of rediscunts on hand, the banks more active in the rediscount business reporting about the same amounts of discounts held as the week before. Bills bought show an increase of about 1.2 millions, New York alone reporting an increase of about 0.5 million under this head. Over 30 per cent of the paper on hand matures within 30 days, and almost 35 per cent after 30 but within 60 days. The holdings of United States bonds show but little change, as the \$9,000,000 limitation upon the amount of bonds securing National Bank currency, which National banks might withdraw during any one month, was reached on March 16, and prevented further release of bonds through deposits with the Treasurer of the United States. The aggregate of municipal warrants increased less than 0.4 million, though the New York bank's holdings of this class of securities show a gain of over 1.6 millions.

Of the total earning assets of about 135 millions, acceptances constitute at present the largest share, viz., 29.9 per cent, followed closely by United States bonds, 29.8 per cent, while warrants are 24.5 per cent, and rediscounts 15.8 per cent of the total. The ratio of total earning assets to paid-in capital has increased to 246 per cent from 152 per cent, shown at the beginning of the year. Government deposits show an increase during the week of 3.4 millions. Bank deposits declined 8.8 millions, net withdrawals being largest in Boston and New York where cash requirements for quarterly payments are heaviest.

The amount of Federal reserve bank notes in circulation, \$964,000, shows a decrease for the week of almost 100 thousand dollars. Federal Reserve Agents report a total of 190.2 millions net of Federal reserve notes outstanding, or about 0.7 million less than the week before. Against this total they hold 179.3 millions in gold and 11.2 millions of paper. The banks' outstanding circulation is given as 163 millions, with net liabilities thereon of 8.9 million dollars.

605.

STATEMENT FOR THE PRESS.

April 8, 1916.

The Federal Reserve Board made public today its regular weekly bank statement as at close of business on April 7, 1916. The statement indicates considerable activity of the banks in the open market during the past week, the sulting in an increase by about 11.8 millions in the total amount of banks' earning assets. Among these assets are shown \$1,932,000 of United States Treasury notes issued in exchange for 2 per cent bonds previously acquired by the Federal reserve banks. These notes bear interest at the rate of 3 per cent per annum and are payable one year after date of issue. The combined gold reserves of the banks decreased during the week 7.9 millions, while the banks' aggregate cash reserves declined about 6.2 millions. Considerable net withdrawals of gold are reported by the Boston, Atlanta, Chicago and Dallas banks.

The decrease in Boston's gold reserve by about 1.5 millions is practically offset by an increase in the total due from other Federal reserve banks. As against a reduction of 1.5 millions in its gold holdings, Atlanta reports the purchase of over one-half million of United States bonds and the deposit with the Agent of 1 million dollars to enable it to withdraw maturing paper. The increase by 1.7 millions in the amount of United States bonds on hand more than accounts for the loss of 1.1 millions of Chicago's gold reserve, while the purchase of about 1.5 millions of United States bonds fully offsets the decrease of 1.3 millions in Dallas' gold reserve.

A renewal of discount activity after a period of comparative inaction is shown for the Chicago and Dallas banks. The aggregate counted paper held by the banks indicates for the first time during the present year an increase over the figures shown for the preceding week. Acceptances on hand show an increase of 1.7 millions, the New York and Philadelphia banks reporting the largest gains under this head. Of the total holdings of this class of paper the three banks on the Eastern seaboard are credited with over 80 per cent. Of the total amount of paper on hand 31.7 per cent matures within 30 days and 34.1 per cent after 30 but within 60 days. The week witnessed the purchase by 7 banks of nearly 5 millions of United States bonds, also an increase of 2.2 millions in the holdings of municipal warrants, Cleveland reporting the purchase of about 2 millions of notes issued by Ohio municipalities.

Of the total earning assets of 146.8 millions, bonds constitute at present 30.8 per cent; acceptances - 28.7 per cent; warrants - 24.0 per cent; discounts - 15.2 per cent; and United States Treasury notes 1.3 per cent. The ratio of total earning assets to paid in capital now stands at 268 per cent, as against 246 per cent the week before, and 163 per cent reported at the end of the first week in the present year.

Government deposits show a decrease for the week of about 1.5 millions, the New York bank reporting the net withdrawal of 2.2 millions of Government funds. The aggregate member bank deposits increased about 3.5 millions, largely with the Boston, New York, and Cleveland banks.

The outstanding circulation of Federal reserve bank notes increased about 0.3 million. Federal Reserve Agents report a total of 190.5 millions net of Federal reserve notes issued to the banks, against which they hold 180.6 millions of gold and 10.8 millions of paper. The banks show a note circulation of 168.3 millions, and aggregate liabilities thereon of 9.5 million dollars.
