## STATEMENT FOR THE PRESS.

October 21, 1916.

Purchases on a large scale of acceptances and net withdrawals in some volume of member bank deposits largely account for the decreases in gold and total reserves indicated by the weekly bank statement made public to-day by the Federal Reserve Board as at close of business October 20, 1916.

Aggregate cash reserves of the banks show a decrease for the week of 10.9 millions, New York, Philadelphia and Cleveland reporting the largest reductions in their cash holdings. The total decrease in gold reserves is slightly over 10 millions. In the case of New York a loss of 8,2 millions in cash reserve is accompanied by an increase of 4.5 millions in the total amount due from other Federal Reserve Banks, of 1.7 millions in earning assets and of 1.9 millions in total deposits. The loss of 2.8 millions shown by the Philadelphia Renk goes hand in hand with an increase of 1.6 millions in earning assets and a decrease in deposits. The Cleveland Bank shows a decline of 2.3 millions in cash reserve, together with a change of an unfavorable balance of over half a million to a favorable balance of 1.8 millio ns in account with other Federal Reserve Banks. Boston reports a gain of $3+5$ millions in total reserve, together with an increase of 1.2 millions in earning assets and a decrease of 4.3 millions in the amount due from other Federal Reserve Eanks.

Discounted paper held by the banks aggregates $\$ 21,365,000$, or about $\$ 600,000$ less than the week before. The 3 southern banks report considerable liquidation of paper, offset in part by increases in the amounts on hand reported by the Chicago and Minneapolis banks. Of the total about $\$ 840,000$ is represented by member banks' own collateral notes discounted by 8 Federal Reserve Ranks. Acceptances on hand show an increase of 5.1 aillions, the 3 eastern banks reporting considerable purchases of this class of paper during the past week. Of the total bills - including acceptances - reported on hand at the close of the report week, 37.3 per cent matured within 30 and 34.5 per cent after 30 but within 60 days. Transactions in U. S. securities - including the conversion on October 1 of 2 per cent bonds into 3 per cent bonds and notes - are reported by 5 banks, resulting in a decrease by $\$ 1,307,000$ of the amount of U. S. bonds and an increase by $\$ 1,153,000$ in the amount of l-year notes carried.

Municipal warrants on hand show an increase for the week of over 1 million, mainly the result of purchases during the week of New York City and Cincinnati warrants. Aggregate earning assets are at present about 190 million dollars, a gain of 4.6 millions for the week, and constitute about 341 per cent of the banks' paid-in capital. Of the trtal earning assets 43.5 per cent is represented by acceptances, 21.8 per cent by U. S. boads; 17.2 per cent by warrants; 11.3 per cent by discounts; and 6.2 per cent by Treasury notes.

Government deposits show a decrease for the week of about $\$ 400,000$, while net member bank deposits decreased 4.1 millions.

Federal Reserve Eank notes in circulation decreased slightly during the week. The Agents report the issue to the banks of $\$ 230,803,-$ 000 (net) of Federal Reserve notes, an increase of $\$ 4,921,000$ for the wook. Against the total issued they hold $\$ 215,329,000$ of gold and $\$ 16,338,000$ of paper. The banks report a total of $\$ 212,044,000$ of Federal reserve notes in actual circulation and aggregate liabilities of $\$ 11,896,000$ on notes issued to them by the Agents.

STATEIENT FOR THE PRESS.

October 28, 1916.

Gains of over 13 millions in total reserves and in net member bank deposits and a large increase in the amount of acceptances held by the Federal reserve banks are indicated by the weekly bank statement issued to-day by the Federal Reserve Board as at close of business on October 27, 1916. Gold reserves show an increase for the week of 13.7 millions. Aggregate gold holdings of the system, including the amounts held by the Federal Reserve Agents against notes issued are now $\$ 617,481,000$, a gain of nearly $125 \mathrm{mil}-$ lions for the last six months and of over 192 millions for the past year.

All the banks except Philadelphia, Chicago, Dallas and San Francisco report larger gold reserves than the week before. Boston reports an increase of 2.9 millions in its gold holdings, the result of liquidation of acceptances and warrants, also of the reduction in the balance due from other Federal reserve banks. New York's gain of gold for the weok, 13.8 millions, is due chiefly to transfers to its account on the broks of the Gold Settlement Fund of balances due from other Federal reserve banks and to a smaller extent to increased Government and member bank deposits. In the case of Kansas City the increase of gold by 3.3 millions is due to increased deposits and the reduction of its favorable balance in account with other Federal reserve banks, while the increase of gold reserve shown for the St. Louis bank is due chiefly to an increase in deposits. The reductions in gold reserve noted result chiefly from transfer $1 /$ t ${ }^{\circ}$ old Gold Settlement Fund, and in the case of Chicago from net withdrawals of member bank deposits.

Discounted paper on han'd decreased $\$ 234,000$, the larger aggregate decline reported by the 3 southern banks being offset in part by increases shown for the Minneapolis and New York banks. The total discounts include the amount of $\$ 1,099,000$ advanced to 8 member banks against their owm collateral notes.

Acceptances on hand total $\$ 86,085,000$, the largest amount ever shown in the Board's weekly statements, and represent a gain of 3.4 millions for the week. Largely increased holdings of this class of paper are reported by the Cleveland, Chicago, Dallas and San Francisco banks. Of the total bills, including acceptances, on hand 34,8 per cent mature within 30 days and 36.5 per cent after 30 but within 60 days.

Transactions in United States securitios are reported by 9 banks, resulting in decreases of $\$ 866,000$ in the amount of bonds and of $\$ 262,000$ in the amount of Treasury notes on hand. Liquidation on a large scale of matured warrants is mainly responsible for the decrease of $\$ 2,653,000$ in the total holdings of municipal warrants. Total earning as sets are given as slightly over 189 mil lions which is 339 per cent of the totel paid-in capital of the banks, as against 341 per cent shown the weok before. Of the total earning assets 45.5 per cent is represented by acceptances; 21.4 per cent by United States bonds; 15.8 per cent by warrants; 11.2 per cent by discounts, and 6.1 per cent by Treasury notes.

Govern:ent deposits increased $\$ 3,866,000$, all the banks except Boston reporting larger Government funds on hand. All the banks except Boston and Chicago report considerable gains in net merber bank deposits.

Federal reserve bank notes in circulation are fiven as \$1,031000, a slight decrease for the week. The total of Federal reserve notes issued to the banks by the Agents is $\$ 234,876,000$ net, or $\$ 4,073,000$ in excess of the total shown the week before. Against this total the Agents hold \$219,502,000 of gold and \$15,817,000 of commercial paper. The banks report a total of $\$ 214,622,000$ of Federal reserve notes in actual circulation and aggregate liabilities of $\$ 11,966,000$ on notes issued to them by the Agents.
