STATEMENT FOR THE PRESS.

February 24, 1917.

Gains of over 12 million dollars in aggregate cash reserves of the Federal reserve banks largely due to increases in Government and member bank deposits; in parthalsonotint the liquidation of bank acceptances held and the reduction/ 1 on federal reserve notes on hand are indicated by the weekly bank statement issued today by the Federal Reserve Board as at close of business February 23, 1917.

The total gold holdings of the system, incluaing amounts of gold held by the Federal reserve banks and agents, stand at present at $\$ 803,324,000$ compared with $\$ 701,501,000$ about 3 months before and $\$ 536,-$ 221,000 about 6 months before.

New York reports a gain of over 15 millions in reserve and an increase of 12.4 millions in its balance due to other Federal reserve banks. Considerable amounts of Federal reserve notes have been issued to the bank and been put into circulation by the latter, the Federal Reserve Agent reporting an addition during the week of about 5.3 millions to his gold holdings. Atlanta's loss in cash reserve is due largely to changes in the deposit account, while Chicago's decrease of cash reserve is nore than offset by an increase in the favorable balance in account with other Federal reserve banks.

Discounted paper on hand increased about \$713,000; Boston, Philadelphia and Cleveland reporting the largest gains for the weok. Of the total shown $\$ 4,632,000$ represents advances made by 11 barks on member banks' collateral notes, compared with $\$ 4,743,000$ reported the week before. Accoptances purchased decreased $\$ 2,088,000$, the banks on the Atlantic and Pacific seaboards reporting smaller holdings of this type of paper. No changes are shown in the holdings of United States bonds and notes. Kansas City and Dallas report small additions to their holdings of municipal warrants, the total on hand being $\$ 446,000$ larger than the week before.

Of the total bills on hand 25.6 per cent mature within 15 days and 22.8 after 15 but within 30 days. Of the warrants on hand 14 per cent mature within 30 days ana 77.7 per cent after 90 dajs, as against 0.6 per cent for bills.

Total earning assets' wore $\$ 209,474,000$, or 374 per cent of the banks 1 paid-in capital, as against 377 per cent the week before. Of the total earning assets - 59.2 per cent is represented by acceptances; 14.0 per cent by United States bonds; 19.7 per cent by discounts; 8.9 per cent by Treasury notes, and 8.2 per cent by warrants.

Considerabie additions to the capital stock and surplus of member banks have caused a proportionate increase of about $\$ 216,000$ in the paidin capital of the Federal reserve banks, 10 reserve banks reporting additions to their capital account. The weok witnessed also an increase in Governnent deposits by over 2.5 millions, New York reporting the largest gain in Government funds. Reserve deposits increased 3.9 millions , though total net bank denosits, including transit items, declined over 1 milion since Friday the week beiore.

Federal Reserve Agenta report a total of $\$ 331,469,000$ of Federal reserve notes issued, an. increaje for the week of $\$ 10,016,000$. Against the total issued ther hold $\$ 306,186,000$ in gold and $\$ 28,618,000$, of paper. The banks' outetanding circulation is given as $\$ 303,171,000$, m increase for the week of $\$ 11,332,000$, with aggregate net liabilities thereon of $\$ 19,061,000$.
