$$
\text { March 24, } 1917 .
$$

Considerable increases in note circulation, together with reductions in reserve deposits, mainly at the New York and Chicago Federal Reserve Eanks, and continued liquidation of acceptances are indicated by the Federal Reserve Board's weekly statement as at close of business on March 23, 1917. Aggregate gold reserves of the banks show an increase for the week of 3.2 millions, while total cash reserves decreased 2.3 millions. The banks also transferred 10.9 millions of gold to the Foderal reserve agents, increasing thereby the latter's gold holdings to \$349,519,000. The total amount of gold held by the system is now $\$ 912,055,000$, an amount in excess of the present gold reserve of any of the European central banks of issue. The reserve position of the banks shows a further improvement, the cash reserve percentage if 30.5 per cent being larger than at any time since February 18, 1918.

New York reports tho liquidatior of 3.5 millions, net, of acceptance: of lone-half mililion of Treasury notes, and of over $\$ 200,000$ of warrants. The bank deposited with the Agent 3.9 aillions of gold, against Federal reserve rotes all of which - and in adition 1.8 millions of notes held by the bank - were put in circulation. Reserve deposits of the banll decrease 212.9 millions. Heavy transfers of gold to other Federal reserve banks were effected by the bank during the week, through the Gold Settlement Fund. The loss of about 3 millions in reserve by the Chicago. bank is due chiefly to net withdrawals of member bank deposits.

Discounted paper on hand shows an increase of l-2 millions. Chicago, Richmond and Cleveland reporting the largest increases under this head. Of the total discounts held $\$ 3,391,000$, or over 18 per cent, is represented by mem'er banks! collateral notes discounted by 9 reserve banks. All the banks except Chicago report considerable liquidation of acceptances, the aggregate held at present - $\$ 87,798,000$ - being about 30 per cent 1 jss than the total held at the begiming of the year. Transactionsin United States securities are reported by 3 banks resulting in an increase of $\$ 120,000$, in the total of United States bonds and a decrease of $\$ 550,000$, in the total of Treasury notes on hand. A further reduction by $\$ 268,000$ is shown the holding of municipal warrants.

Total earning assets - \$170,125,000-show a decrease for the week of 8.6 millions and constitute at present 303 per cent of the banks ${ }^{\text {s }}$ paid-in capital, compared with 319 per cent shown the week before. Of the total, 51.6 per cent is represented by acceptances; 17.2 per cent by United States bonds; 11.1 per cent by Treasury notes; 10.8 per cent by discounts, and 9.3 per cent by warrants. Government deposits increased I. 1 millions, the Richmond, Atlanta and San Francisco banks reporting considerable gains of Government funds on hand. Member banks' reserve deposits declined about 15 miliions, New York alone reporting net withdrawals of nearly 13 millions.

Federal Reserve ligents report a total issue to the banks of $\$ 372,-$ 244,000, net, of notes, an increase for the week of about 9 millions. Against the total issued, they hold $\$ 349,519,000$ of gold and $\$ 24,386,000$ of paper. The banks show a total actual Federal reserve note circulation of $\$ 346,804,000$ and aggregate liabilities thereon of $\$ 16,725,000$.
