

STATEMENT FOR THE PRESS

March 9, 1918.

Credit operations of the Government notably the placing with the financial institutions of the country of 500 millions of U. S. certificates of indebtedness are reflected to some extent in the Federal Reserve Board's weekly statement showing the condition of the Reserve banks as at close of business on March 8, 1918. Total investments of the banks show a gain for the week of 56.7 millions, of which the larger portion represents an increase in certificates of indebtedness purchased for the accommodation of members, also of bills held by the New York bank. Member bank reserve deposits show an even larger increase, following heavy withdrawals of Government deposits which in most cases were transferred to the credit of depository member banks. Gold reserves show an increase of 10.9 millions, following the issue during the week of over 40 millions net of Federal Reserve notes.

Boston reports a gain of about 19 millions in reserves due to the liquidation of 14.3 millions of bills, largely acceptances, also to a gain of over 3 millions in net deposits. The New York bank shows a decrease of 5.8 millions in reserves, having increased investments by about 52.2 millions, net deposits by about 35 millions and note circulation by 10.8 millions. Reserves of the Kansas City bank show a decline of 10.6 millions owing largely to the investment during the week of 9.3 millions net in bills, largely acceptances.

Discounted bills on hand increased 17.8 millions, while acceptances and government securities show gains of 18.7 millions and 20 millions, respectively. Of the total discounts, 264.5 millions, or over one-half, is composed of members' collateral notes or customers' paper secured by Government War obligations. Total earning assets, 1,097.3 millions, constitute at present 74.5 per cent of the banks' net deposits, as against 72.3 per cent shown the week before.

Payment for Federal Reserve bank stock by newly admitted members accounts for an increase of \$223,000 in paid-in capital, the Boston bank alone reporting an increase of \$92,000 under this head. Federal Reserve Agents report a total of 1,505.2 millions of Reserve notes outstanding, an increase of 40.6 millions for the week. Against the total they hold 896.7 millions of gold and 813.3 millions of paper. The banks' aggregate Reserve note circulation is given as 1,384 millions, all the banks, except Atlanta and Dallas, reporting substantial increases in their note circulation for the week under review.

CONDITION OF MEMBER BANKS ON MARCH 1

Principal changes for the week ending March 1 in the condition of 686 reporting member banks are shown as follows:

Certificates of indebtedness on hand at all reporting banks show an increase for the week of 163.3 millions, while total Government securities increased by 140.1 millions. Of the total of 1,067.9 millions of certificates, over 77 per cent is held by banks in central reserve cities and about 72 per cent by the New York City banks. Loans secured by Government obligations show an increase of 3.3 millions and all other loans and investments - a decrease of 10.2 millions.

Net demand deposits of all reporting banks decreased 127.4 millions and time deposits 29.8 millions, while Government deposits increased 33.6 millions. At the banks in the central reserve cities net demand deposits decreased 64.3 millions and time deposits 9.5 millions, while Government deposits increased 9.2 millions. Aggregate reserves with Federal Reserve banks fell off 81.6 millions, of which 61.7 millions represents the loss in reserve of the banks in central reserve cities. Excess reserves declined from 91.6 to 25.1 millions, largely at the New York City banks.

The ratio of reserve and cash to total deposits declined from 13.7 to 13.0 per cent. For the banks in central reserve cities this ratio went down from 14.6 to 13.4 per cent. Inversely, the ratio of loans and investments to total deposits for all reporting banks shows an increase from 105.5 to 107.9 per cent and from 100.2 to 102.5 per cent for the banks in the central reserve cities.

(a) Exclusive of Kansas City

STATEMENT FOR THE PRESS.

March 16, 1918.

Gains aggregating over 5 millions in gold reserves and of nearly 10 millions in total earning assets are indicated in the Federal Reserve Board's weekly bank statement issued as at close of business on March 15, 1918. The week saw considerable shifting of credits in the Gold Settlement Fund from New York to other cities, the former's cash reserve showing a decrease of 58.6 millions. Bill holdings of the bank, largely discounted paper, increased 21.7 millions, while U. S. short term securities, chiefly certificates of indebtedness acquired for the temporary accommodation of member banks - show a gain of 15.7 millions. Chicago reports a gain of 30.8 millions in cash reserve largely through transferson the books of the Gold Settlement Fund.

Discounts on hand decreased 2.9 millions, all the banks outside of New York and Kansas City reporting smaller figures than the week before. Of the total held, 257.6 millions as against 264.5 millions was paper secured by Government War obligations. Acceptances on hand show the record total of 323.2 millions, an increase of 5.3 millions for the week. U. S. bond holdings were 3.8 millions less and U. S. short term securities - 11.2 millions more than the week before. Total earning assets show an increase of 9.8 millions and constitute 75.6 per cent of net deposits as against 74.5 per cent the week before

Payment for Federal Reserve bank stock by newly admitted members, mainly in the Boston district accounts for an increase of \$262,000 in paid-in capital. Government deposits went up 15.8 millions and member banks' reserve deposits declined 17.5 millions. Federal Reserve Agents report a total of 1520.3 millions of notes outstanding an increase of 15.1 millions for the week. Against this total they hold 869.6 millions of gold and 821.1 millions of paper. The banks show an increase in actual note circulation of 22.2 millions, all the banks, except Atlanta and Dallas, reporting increases in their circulation for the week under review.

CONDITION OF MEMBER BANKS ON MARCH 8.

Net liquidation by 59.5 millions in the total of certificates of indebtedness held and reduction by 131.9 millions in other loans and investments held by New York City banks partly through rediscounts with the Federal Reserve bank are indicated by the weekly statement showing condition of 682 member banks as at close of business on March 8. For all reporting banks decreases of about 55 millions in the holdings of certificates of indebtedness and of 65.8 millions in aggregate loans and investments are shown. Total loans secured by U. S. War obligations show a decrease of 16.9 millions and all other loans and investments - an increase of 4.2 millions.

Net demand deposits gained 30.0 millions, while time deposits and Government deposits show an increase of 20.6 millions each. Aggregate reserves with Federal Reserve banks increased 75.7 millions, while excess reserves went up by 73.5 millions from 25.1 to 98.6 millions.

In the central reserve cities corresponding changes were as follows: certificates of indebtedness decreased 61.0 millions and U. S. securities - 63.3 millions. Loans secured by U. S. bonds and certificates declined 20.6 millions; all other loans and investments - 104.8 millions. All classes of deposits held by these banks show decreases; net demand decreasing 39.7 millions, time deposits - 11.0 millions and Government deposits - 8.8 millions. Reserve with Federal Reserve banks increased 43.8 millions, while excess reserves gained 49.3 millions, increasing from 6.6 to 55.9 millions.

The ratio of loans and investments to total deposits declined in central reserve cities from 102.5 to 102.1 per cent and for all reporting banks from 107.9 to 106.8 per cent. Inversely, the ratio of reserve and cash to total deposits of central reserve city banks increased from 13.4 to 14.6 per cent, and of all reporting banks from 13.0 to 13.7 per cent.

Released for publication Sunday morning March 17, 1918.

Not earlier.
