

## STATEMENT FOR THE PRESS.

September 21, 1918.

Further increases in loans supported by Government war securities in connection with the 600 million issue on September 17 of Treasury certificates also substantial additions to outstanding note circulation are indicated by the Federal Reserve Board's weekly statement issued as at close of business on September 20, 1918.

INVESTMENTS: The statement for the first time segregates war paper from other discounts. The former includes member banks' notes and customers' paper secured by Liberty bonds and Treasury certificates, and the latter - holdings of all other secured and unsecured paper discounted by the Federal Reserve banks. It is seen that whereas the holdings of war paper increased about 75 millions during the week, other discounts on hand fell off 23.1 millions. Acceptances on hand show an increase of 10.7 millions, largely at the New York Reserve bank. The increase of 3.1 millions in U.S. short-term securities is made up largely of 1-year Treasury certificates deposited by the Reserve banks with the U. S. Treasurer to secure bank note circulation. Total earning assets show an increase of 54.7 millions.

DEPOSITS: Net withdrawals of Government funds totaled 37.6 millions, Minneapolis and Boston reporting the largest reductions for the week. Members' reserve deposits increased 54.9 millions and net deposits - 7.1 millions.

RESERVES: Gold reserves declined about 1 million and total cash reserves - 1.7 millions. Considerable shifting of reserves away from New York and Minneapolis, largely in connection with the transfer of Government funds is noted. The banks' reserve percentage shows a decline for the week from 53.7 to 52.9 per cent.

NOTE CIRCULATION: Federal Reserve note issues during the week totaled 57.3 millions net. The banks report a total Federal Reserve note circulation of 2,295 millions, an increase for the week of 49.6 millions. Federal Reserve bank notes have been issued by all Reserve banks, their aggregate liabilities on these notes amounting to 33.2 millions, an increase for the week of 5.5 millions.

CAPITAL: An increase of \$136,000 in paid-in capital is due largely to payment for Federal Reserve bank stock by newly admitted banks, the Chicago Bank alone reporting an increase of \$79,000 in its paid-in capital.

## CONDITION OF MEMBER BANKS, SEPTEMBER 13, 1918.

Large withdrawals of Government deposits accompanied by substantial increases in demand deposits are indicated in the Board's weekly statement showing condition on September 13 of 734 member banks in leading cities.

Treasury certificates on hand were 28.4 millions less than the week before, while U.S. bonds, other than circulation bonds, fell off 16.8 millions. For the central reserve cities reductions of 12.1 millions in the holdings of certificates and of 3.7<sup>millions</sup> in U.S. bonds are shown. Aggregate loans secured by U.S. war obligations show an increase for the week of about 2.2 millions, while other loans and investments went up 4.2 millions. Somewhat larger increases of these two items obtain for the central reserve city banks. Of the total loans and investments the combined ratio of U.S. war obligations and loans secured by such obligations was 16.4 per cent, as against 16.7 the week previous. For the central reserve city banks this ratio shows a decline from 16.2 to 15.7 per cent.

Government deposits show a reduction of 174.8 millions, all classes of banks reporting substantial withdrawals of Government funds. Net deposits, on the other hand, went up 136.7 millions, gains under the latter head being more or less commensurate with reductions in Government deposits shown. Time deposits show a decrease of 14.4 millions, largely outside of central reserve cities. Reserve balances with the Federal Reserve banks declined 28.9 millions, a larger decline being shown for the banks in the central reserve cities. Practically no change is seen in the totals of vault cash.

For all reporting banks the ratio of loans and investments to deposits shows a slight increase from 125.7 to 125.8 per cent. For the central reserve city banks a rise of this ratio from 116.3 to 116.6 per cent is noted. The ratio of aggregate reserve balances (with the Federal Reserve banks) and cash to deposits declined from 14.9 to 14.7 per cent for all reporting banks and from 16.2 to 15.7 per cent for the central reserve city banks. "Excess reserves" of all reporting banks work out at 46 millions as against 88.9 millions the week before. For the central reserve city banks a decline of this item from 68.3 to 29.4 millions is noted.

STATEMENT FOR THE PRESS.

Continued borrowing by member banks in connection with the 6th issue of Treasury certificates in anticipation of the Fourth Liberty Loan, also considerable purchases of acceptances are indicated by the Federal Reserve Board's weekly bank statement issued as at close of business on September 27, 1918.

INVESTMENTS: Holdings of war loan paper, i.e., member banks' notes secured by Treasury certificates and Liberty bonds also customers' paper similarly secured went up 75.2 millions, all the banks except Cleveland, Minneapolis and Kansas City, showing substantial additions to their holdings of this class of paper. Other discounts on hand fell off 21.9 millions, the New York and Chicago banks reporting the largest decreases under this head. Acceptances on hand gained 38.4 millions, New York alone reporting an increase of 23.6 millions of bills purchased in open market. An increase of 8.2 millions in government short-term obligations represents largely 2 per cent Treasury certificates deposited with the U.S. Treasurer to secure Federal Reserve bank note circulation. Total earning assets show a combined increase for the week of 99.4 millions.

DEPOSITS: Government deposits were 22.5 millions larger than the week before. Member banks' reserve deposits show an increase for the week of about 11 millions, while net deposits work out at about 37.8 millions in excess of the previous week's total.

RESERVES: The week saw considerable shifting of reserves through the Gold Settlement Fund from New York to banks in the interior. Total reserves show a decrease of 3.9 millions, of which 2.7 millions represents a decrease in gold. The banks' reserve percentage shows a decline for the week from 52.9 to 51.6 per cent.

NOTE CIRCULATION: Federal Reserve Agents report a net addition of 48 millions to the total of Federal Reserve notes outstanding. The banks show an increase for the week of 54.3 millions of Federal Reserve notes in circulation besides an increase of 2.6 millions in their aggregate liabilities on Federal Reserve bank notes in circulation.

CAPITAL: Payment for Federal Reserve bank stock by newly admitted members, largely in the Boston, Cleveland, Chicago and Dallas districts, is mainly responsible for an increase of \$113,000 in the total paid-in capital shown in this week's statement.

CONDITION OF MEMBER BANKS, SEPTEMBER 20, 1918.

Large increases in Treasury certificate holdings following the 600 million dollar issue of Treasury certificates dated September 17 and in Government deposits accompanied by some curtailment of other loans and investments are indicated by the Board's consolidated weekly statement showing condition on September 20 of 738 member banks in leading cities.

U.S. bonds on hand show but little change, while Treasury certificate holdings show an increase for the week of 272.3 millions, of which 160.9 millions represents the increase at banks in the three central reserve cities. Aggregate loans secured by U.S. war obligations went up 12.9 millions, largely outside the central reserve cities. All other loans and investments fell off 16.5 millions, liquidation being confined however to Greater New York banks. Of the total loans and investments the combined share of U.S. war obligations and loans secured by such obligations constitutes 18.2 per cent, as against 16.4 per cent the week before. For the central reserve city banks a rise in this percentage from 18 to 20.1 per cent is noted.

Government deposits show a gain of 198.9 millions, of which 108 millions represent the increase at central reserve city banks, and 77.7 millions the increase at banks in other reserve cities. Net demand deposits declined about 2.3 millions, though the New York bank reports a decrease under this head of about 33 millions. Time deposits went up 32.2 millions, all outside of the central reserve cities. Reserve balances with the Federal Reserve banks increased 54.6 millions, largely in Greater New York, while cash in vault gained 8.9 millions.

For all reporting banks the ratio of investments to deposits remained unchanged at 125.9 per cent, while for the banks in the central reserve cities this ratio shows a rise from 116.7 to 117.5 per cent. The ratio of combined reserve balances and cash to deposits shows an increase from 14.7 to 15 per cent for all reporting banks and from 15.8 to 16.3 per cent for the banks in the central reserve cities. "Excess reserves" of all reporting banks work out at 100.9 millions as against 46.1 millions the week before. For the central reserve city banks an increase in this item from 29.7 to 77.7 millions is noted.
