STATEMENT FOR THE PRESS. St. 655

Released for publication
Monday morning, October 20,
1919; not earlier.

Federal Reserve Board,
October 18, 1919.

CONDITION OF MEMBER BANKS.

An increase of 120.5 millions in loans and investments, other than loans secured by U. S. obligations and by stocks and bonds, offset in part by declines in U. S. security holdings, is indicated in the Federal Reserve Board's weekly statement of condition on October 10 of 776 member banks in leading cities. Accommodation extended by the Federal Reserve banks to reporting member banks also shows a material increase for the week.

During the week, holdings of Treasury certificates declined 15.2 millions, and of U. S. bonds - 4.1 millions, while a nominal increase (.6 millions) is shown in Victory notes held and an increase of 2.2 millions in war paper on hand. Loans secured by stocks and bonds show a liquidation of 19.1 millions, New York City banks alone reporting a much greater reduction under this head. All other loans and investments went up 120.5 millions, all classes of banks participating in the increase. Aggregate holdings of war securities and war paper declined from 3,247.2 millions to 3,230.7 millions, and constitute 20.9 per cent of the total loans and investments of all reporting banks, compared with 21.1 per cent the week before. For the New York City banks a decline in this ratio from 26.2 to 25.8 per cent is noted.

Government deposits show an increase of 7.8 millions, though a decline of about 11 millions is reported for the New York City banks. Other demand deposits (net) went up 39.9 millions, New York City banks showing a decline under this head also, and time deposits increased 24.9 millions. Reserve balances (all with the F.R.banks) show an increase for the week of 6.3 millions, and cash in vault - of 16.7 millions. Accommodation by the F. R. banks through the discount of the reporting banks' own notes and customers' paper shows a further increase of 55.3 millions. The ratio of these discounts and government deposits combined to holdings of U. S. war securities and war paper works out at 70 per cent, as against 67.7 per cent the week before. For the New York City banks this ratio shows an increase for the week from 65.1 to 68.5 per cent.

Released for publication Monday morning, October 20, 1919; not earlier. St.655a

STATEMENT SHOWING PRINCIPAL RESOURCE AND LIABILITY ITEMS OF MEMBER BANKS IN LEADING CITIES.

FEDERAL RESERVE BOARD
DIVISION OF REPORTS AND STATISTICS
OCTOBER 24, 1919.

STATEMENT FOR THE PRESS. St. 668

Released for publication
Sunday morning, October
26, 1919; not earlier.

Federal Reserve Board,
October 25, 1919.

CONDITION OF FEDERAL RESERVE BANKS.

Gains in gold reserve through transfer of gold from the European continent to the Bank of England vaults and a moderate reduction in loan account are indicated in the Federal Reserve Board's weekly bank statement issued as at close of business on October 24, 1919. Deposit liabilities of the banks declined about 3.8 millions, and for the first time since September 19 Federal Reserve note circulation shows but a nominal increase. The result is seen in the rise of the reserve ratio from 48.3 to 48.7 per cent.

War paper on hand shows a decline for the week of 32.8 millions while other discounts fell off 6.8 millions. Holdings of acceptances increased 25.9 millions, those of Treasury certificates - 4.2 millions, while total earning assets show a decline of 9.5 millions. War paper holdings of the Chicago bank are inclusive of 43.1 millions of paper discounted for other F. R. banks, while San Francisco's acceptance holdings include 12.7 millions of bills purchased from other F. R. banks, as against 13.7 millions the week before.

All classes of deposits show decreases for the week; government deposits being 49.7 millions less, member banks' reserve deposits - 27.5 millions less, and all other deposits, including foreign government credits - 2.6 millions less than the week before. On the other hand, substantial decreases are shown for the totals of gold in transit and in custody, also for the "float" carried by the F.R. banks, both of which items are treated as deductions from gross deposits. Net deposits figure out 3.8 millions less, while F. R. note circulation is but 0.9 million larger than the week before.

Admission to membership of State banks and Trust companies accounts for an increase of $323,000 in capital account, the F. R. banks at Chicago and San Francisco reporting most of the increase.

Released for publication Sunday morning, October 26, 1919; not earlier. St. 868a

STATEMENT OF COMBINED RESOURCES AND LIABILITIES OF THE TWELVE FEDERAL RESERVE BANKS AT CLOSE OF BUSINESS OCTOBER 24, 1919.

STATEMENT FOR THE PRESS. St. 669

Released for publication
Monday morning, Oct.
27; not earlier.

Federal Reserve Board,
October 25, 1919.

CONDITION OF MEMBER BANKS.

Substantial reduction in the holdings of Treasury certificates, offset, however, to a large extent by a further increase in loans secured by stocks and bonds is indicated by the Federal Reserve Board's weekly statement of condition on October 17 of 776 member banks in leading cities.

No material changes are shown in the totals of other Government securities held, while the amount of war paper on hand shows a reduction of 19 millions, of which over 14 millions represents the decrease at the New York City banks. On the other hand loans secured by stocks and bonds went up about 35 millions, the New York City banks reporting an increase of 23.4 millions under this head. All other loans and investments show a decline of 38 millions for the New York banks and of 16.5 millions for all reporting banks. Aggregate holdings of Government war securities and war paper declined from 3,230.7 to 3,168.2 millions and constitute 20.5 per cent of the total loans and investments of all reporting banks, as against 20.9 per cent the week before. For the New York City banks a decline in this ratio from 25.8 to 25.3 may be noted.

Apparently in connection with Liberty Loan interest payments due October 15 the Government deposit account shows a decline of 129.5 millions at all reporting banks and of 86.5 millions at the banks in New York City. On the other hand, other demand deposits (net) went up 91.5 millions, nearly all outside of New York, while time deposits show a total gain of 10.1 millions. In keeping with the large increase in deposits, other than Government deposits, reserve balances with the Federal Reserve banks went up 25.9 millions. Cash in vault declined 2.5 millions.

Accommodation by the Federal Reserve banks through the discount of the reporting banks' own notes and customers' paper shows a further increase for the week of about 55 millions. The ratio of the combined amount of these discounts and Government deposits to the aggregate of Government war securities and war paper - which is indicative of the extent to which the financing of Government loans is shifted from the member banks to the Reserve banks - shows a decrease for the week from 70 to 69 per cent for all reporting banks and from 68.5 to 65.6 for the member banks in New York City.

Released for publication Monday morning, October 27, 1919; not earlier. St. 669a
