December 1, 1921.

CONDITION OF FEDERAL RESERVE BANKS

Further gains of \$14,200,000 of gold, offset in part by a loss of \$3,300,000 of other reserve cash, are indicated in the Federal Reserve Board's weekly consolidated bank statement issued as at close of business on November 30, 1921. Deposit liabilities of the reserve banks show an increase of \$14,300,000 for the week, while Federal Reserve note circulation decreased by \$23,900,000. In consequence of these changes, the reserve ratio shows a further rise for the week from 72.3 to 72.7 per cent.

Federal reserve bank holdings of bills secured by United States Government obligations show an increase of \$9,200,000, larger increases in the holdings of paper secured by Treasury notes and Treasury certificates being offset in part by reductions in the amounts of paper secured by U. S. bonds and Victory notes. Other discounts on hand show a decline of \$32,100,000, while holdings of acceptances purchased in open market increased by \$3,600,000. U. S. bonds and notes show a nominal decrease, Pittman certificates used as cover for Federal reserve bank note circulation show a decrease of \$5,000,000 for the week, while other Treasury certificates, largely held under repurchase agreements by the New York reserve bank, increased by \$8,500,000. The statement for the first time during the present year shows reserve bank holdings of municipal warrants reported by the Philadelphia and Minneapolis banks. Total earning assets of the reserve banks are given about \$16,000,000 less than the week before, and at the close of November stood at \$1,459,900,000, a decline of over 57 per cent from the peak attained on October 15 of last year.

Of the total holdings of \$476,400,000 of bills secured by United States Government obligations, \$338,400,000, or 71.0 per cent, were secured by Liberty and other U. S. bonds, \$77,700,000, or 16.3 per cent, - by Victory notes, \$30,400,000, or 6.4 per cent, - by Treasury notes, and \$29,900,000, or 6.3 per cent, - by Treasury certificates, compared with \$340,100,000, \$81,600,000, \$19,600,000 and \$16,900,000 reported the week before.

Bills held under rediscount for other reserve banks by the Boston, New York and Cleveland banks show a decline from \$19,700,000 to \$14,800,000. Richmond reports a reduction from \$10,000,000 to \$4,300,000 in the amount of paper held under rediscount with the New York reserve bank. Atlanta shows a slight increase from \$7,200,000 to \$7,500,000 in its total rediscounts with the Boston and Cleveland banks, while Dallas increased from \$2,500,000 to \$3,000,000 the amount of bills rediscounted with the Boston reserve bank.

Government deposits are given \$13,700,000 larger than the week before. Reserve deposits show a nominal decrease, while other deposits, composed chiefly of non-members' clearing accounts and cashier's checks, increased by \$900,000.

With the exception of the San Francisco bank, all Federal reserve banks report smaller figures of Federal reserve note circulation than last week, the November 30 total of \$2,365,000,000 representing a new low record for the year and a total lower than any published after September 27, 1918. As against this reduction in Federal reserve note circulation, the aggregate net liabilities of the banks on Federal reserve bank notes in circulation show an increase of \$1,100,000, though the actual amount outstanding, according to Treasury records, shows an increase of less than \$300,000 for the week under review.

STATEMENT FOR THE PRESS

Released for publication

St. 2465.  
Federal Reserve Board,  
December 8, 1921.

CONDITION OF FEDERAL RESERVE BANKS

Aggregate increases of \$7,400,000 in Federal reserve note circulation, as against a reduction of \$24,500,000 in deposit liabilities and a gain of \$1,500,000 in cash reserves, are indicated in the Federal Reserve Board's weekly consolidated bank statement issued as at close of business on December 7, 1921. The reserve ratio shows a further rise for the week from 72.7 to 73.1 per cent.

As against a reduction of \$18,700,000 in the reserve bank holdings of bills secured by United States Government obligations, holdings of other discounted bills show an increase of \$7,100,000, and holdings of acceptances purchased in open market - an increase of \$8,800,000. The New York reserve bank shows a larger increase, viz., by \$14,700,000, in acceptances held mainly under repurchase agreements, while most of the other reserve banks report moderate reductions under this head. U. S. bonds and notes on hand show an increase of \$2,500,000, Pittman certificates on deposit with the Treasury to secure Federal reserve bank note circulation declined \$1,500,000, while other Treasury certificates, largely held under repurchase agreements by the New York reserve bank, decreased by \$3,100,000. Holdings of municipal warrants, totaling \$227,000, are reported by the Federal reserve banks of Philadelphia, Minneapolis and Kansas City. Total earning assets of the reserve banks, as the result of the changes indicated, show a reduction of \$4,800,000 for the week, the December 7 total of \$1,455,100,000 marking a decline of 56 per cent from the total reported on the corresponding date last year.

Of the total holdings of \$457,600,000 of bills secured by United States Government obligations, \$333,500,000, or 72.9 per cent, were secured by Liberty and other U. S. bonds, \$72,400,000, or 15.8 per cent, - by Victory notes, \$23,200,000, or 5.1 per cent - by Treasury notes and \$28,500,000, or 6.2 per cent, - by Treasury certificates, compared with \$338,400,000, \$77,700,000, \$30,400,000 and \$29,900,000 reported the week before.

Bills held under rediscount for other reserve banks are reported by the Boston bank only, the total of \$6,200,000 constituting a low record for the year. During the week Richmond was able to redeem all its outstanding paper under rediscount with the New York reserve bank. Atlanta redeemed all the paper rediscounted with the Cleveland bank and reduced from \$7,200,000 to \$4,300,000 the amount of bills held under rediscount with the Boston bank, while Dallas reports a reduction from \$3,000,000 to \$1,900,000 in the amount of bills rediscounted with that bank.

Government deposits are given \$6,400,000 larger than the week before. Reserve deposits show a decline of \$29,900,000 and a larger decline at the New York reserve bank. Other deposits, composed chiefly of non-members' clearing accounts and cashier's checks, show a decrease of \$1,000,000.

Moderate changes in Federal reserve note circulation are reported by all Federal reserve banks, except by the New York bank, which shows an increase for the week of \$10,100,000, as against an increase for the system of \$7,400,000. In addition, the reserve banks report an increase of \$1,100,000 in their aggregate net liabilities on Federal reserve bank notes in circulation, though the actual amount outstanding, according to Treasury records, shows a decrease of \$2,100,000 for the week under review.
