CONDITION OF MEMBER BANKS IN LEADING CITIES

Moderate increases in commercial loans, as against further reductions in the holdings of Treasury certificates and of war loan paper, accompanied by larger increases of borrowings from the Federal Reserve Banks, are indicated in the Federal Reserve Board's weekly statement showing condition on June 4 of 813 member banks in leading cities.

United States bond and Victory note holdings show a nominal increase of 1.5 millions, while holdings of Treasury certificates show a further decline of 5.8 millions for all reporting banks, and of 9.8 millions for the member banks in New York City. Loans secured by U. S. War obligations (War paper) declined 17.6 millions, largely in New York City, and loans secured by stocks and bonds - 4.5 millions, though the New York City banks report an increase under this head of 6.4 millions. All other loans and investments, made up largely of commercial loans and discounts, increased by 30.8 millions and slightly more in New York City. As a consequence, total loans and investments of reporting banks show an increase for the week of 4.5 millions, as against an increase of 15.2 millions recorded for the member banks in New York City.

Net withdrawals of Government deposits for the week totaled about 23 millions, while other demand deposits (net) show a decline of 24.1 millions for all reporting banks, and of 64.8 millions for the New York City banks. Time deposits show a gain of 22.3 millions, all outside of New York City.

Total accommodation at the Federal Reserve Banks increased from 2,060.1 to 2,091.9 millions, or from 12.1 to 12.2 per cent of the total loans and investments of the reporting institutions. For the New York banks this ratio shows an increase from 10.6 to 11.4 per cent. Of the total paper held under discount by the Federal Reserve Banks for reporting member banks, the share of war paper was 55 per cent. At the New York Reserve Bank, this share was about 67 per cent.

Federal Reserve balances show an increase of 3.9 millions for all reporting inmembers
stitutions. For the New York City /a decrease in this item of about 8 millions is
noted. Cash in vault, largely Federal Reserve notes, increased 22.2 millions, all
classes of institutions showing additions under this head.
