Federal Reserve Board,
October 30. 1920.

CONDITION OF MEMBER BANKS IN LEADING CITIES.

General liquidation of loans and discounts and corresponding declines in demand deposits and bank reserves are indicated in the Federal Reserve Board's consolidated statement of condition on October 15 of 823 member banks in leading cities.

As against nominal increases in the holdings of United States bonds and Victory notes, those of Treasury certificates show a reduction of 47.9 millions, compared with an increase of about 44 millions for the previous week, which saw the allotment of 124 millions of a new certificate issue. Loans secured by Government war obligations, including Treasury certificates, (so-called war paper) declined by 11.1 millions. For the member banks in New York City reductions of 13.4 millions in Treasury certificates and of 4.4 millions in war paper are seen. Loans secured by corporate obligations show a reduction of 56.4 millions, a slightly larger decrease of this item being shown for the New York City members. Other loans and investments, comprising largely commercial loans and discounts, fell off 70.8 millions, largely outside of New York City. The combined result of these changes is seen in a reduction of 182.0/millions loans and investments of the reporting institutions, of which over one-half represents the reduction at the New York member banks.

Accommodation of the reporting institutions at the Federal Reserve Banks shows a decrease from 2,243.9 to 2,201.9 millions, or from over 13 to 12.9 per cent of the banks' total loans and investments. For the New York City banks an increase in borrowings from the Federal Reserve Banks from 848.3 to 856.1 millions is shown accompanied by a rise in the ratio of Federal Reserve accommodation from 14.6 to 14.9 per cent.

Further withdrawals of Government funds reduced the total Treasury balance with the reporting banks by 36.6 millions, the New York City banks reporting a decrease under this head of 16.6 millions. Other demand deposits (net), because of the considerable loan liquidation effected during the week, also in consequence of the continued withdrawals of funds from New York members by country banks in the South and West for use in agriculture and crop moving, show a reduction of 232.3 millions, the New York City banks alone reporting a reduction of this item by 134.2 millions. Time deposits show a gain of 6.3 millions, of which less than 1 million is the gain at the New York institutions. As the result of the heavy withdrawals of deposits from the banks in the larger centers, the reserve balances of the reporting institutions show a decline of 88.9 millions, of which 72.8 millions is reported for member banks in New York City. Cash in vault fell off 3.6 millions, nearly one-half of which represents the decline at the New York City banks.

Leleasod for publication Monday morning, November 1, 1920; not earlier.
