CONDITION OF WEEKLY REPORTING MEMBER BANKS IN 90 LEADING CITIES

The Federal Reserve Board today resumed publication of its weekly condition statement of reporting member banks in leading cities. The statement covers banks in 90 leading cities instead of in 101 leading cities as formerly, and shows figures as of Wednesday, May 10. The 90 cities now included in this statement are those in which all or nearly all reporting banks have been licensed to resume full banking operations. Corresponding data by weeks beginning March 1 will be published in the Federal Reserve Bulletin.

The statement shows increases for the week of \$30,000,000 in total loans and investments, \$161,000,000 in net demand deposits and \$72,000,000 in reserve balances with Federal reserve banks, and decreases of \$12,000,000 in time deposits and \$49,000,000 in borrowings from Federal reserve banks.

Loans on securities increased \$35,000,000 in the New York district and \$17,000,000 at all reporting member banks. "All other" loans declined \$22,000,000 in the New York district and \$17,000,000 at all reporting banks, and increased \$8,000,000 in the Chicago district.

Holdings of United States Government securities declined \$16,000,000 in the Chicago district and increased \$9,000,000 in the Philadelphia district, all reporting banks showing little change for the week. Holdings of other securities increased \$29,000,000 in the New York district and \$31,000,000 at all reporting banks.

Licensed member banks formerly included in the condition statement of reporting member banks in 101 leading cities, but not now included in the weekly statement, had total loans and investments of \$711,000,000 and net demand, time and Government deposits of \$650,000,000 on May 10, compared with \$708,000,000 and \$653,000,000, respectively, on May 3.

A summary of the principal assets and liabilities of the reporting member banks, in 90 leading cities, that are included in the statement, together with changes during the week and the year ended May 10, 1933, follows:
