

CONDITION OF WEEKLY REPORTING MEMBER BANKS IN LEADING CITIES

The condition statement of weekly reporting member banks in leading cities shows the following principal changes for the week ended November 28: Increases of \$603 million in holdings of Treasury bills, \$683 million in demand deposits adjusted, \$137 million in United States Government deposits, and \$131 million in borrowings, and a decrease of \$431 million in demand deposits credited to domestic banks.

Commercial, industrial, and agricultural loans decreased \$20 million in the San Francisco District, \$15 million in the Chicago District, and \$13 million in the Boston District, and they increased \$29 million in New York City, \$14 million in the St. Louis District, and \$12 million in the Dallas District; the net decrease at all reporting member banks was \$7 million. Unclassified loans and loans to manufacturers of textiles, apparel, and leather showed net repayments; loans to commodity dealers, manufacturers of food, liquor, and tobacco products, and to manufacturers of metals and metal products showed increases. None of these changes exceeded \$40 million and the figures are preliminary; a complete analysis will be available in another press release next Tuesday which will include the purpose classification. Loans to banks decreased \$69 million.

Holdings of Treasury bills increased in nearly all districts, partly reflecting the new issue of tax anticipation bills. Holdings of "other securities" increased \$75 million.

Demand deposits adjusted increased \$366 million in New York City, \$94 million in the Chicago District, and \$64 million in the Cleveland District; they decreased \$54 million in the Kansas City District.

Borrowings increased \$75 million in the San Francisco District but decreased \$36 million in the Cleveland District.

A summary of assets and liabilities of reporting member banks follows:

	Nov. 28, 1951	Increase or decrease since	
		Nov. 21, 1951	Nov. 29, 1950
