

# FEDERAL RESERVE

---

## statistical release

February 1973

Revised

Seasonally Adjusted and Not Seasonally Adjusted Monthly  
and Weekly:

1. Money Stock Measures
2. Aggregate Reserves
3. Member Bank Deposits

For a detailed explanation of the revision, see the  
February 1973, Federal Reserve Bulletin.

Banking Section  
Division of Research and Statistics  
Board of Governors of the Federal Reserve System

I.

NOTE: Effective June 9, 1966, balances accumulated for the repayment of personal loans (hypothecated deposits) were eliminated from time deposits due to a change in Regulation D. This change reduced all commercial bank other time deposits about \$1.1 billion and member bank other time deposits about \$900 million. Broader measures of the money supply --  $M_2$  and  $M_3$  -- and total member bank deposit measures are also affected.  $M_3$  data and nonbank thrift institution data reflect several minor structural changes. Effective dates, changes in Regulations D, J, and M, and the impact of such changes in millions of dollars on the reserve aggregate series are shown on the following pages.

II.

- 1/ Effective September 1, 1960, the reserve requirement of central reserve city banks against their net demand deposits was reduced from 18 per cent to 17-1/2 per cent. This action reduced required reserves approximately \$120 million and reserves available to support private nonbank deposits (RPD's) \$100 million.
- 2/ Effective November 24, 1960, the reserve requirements of country banks against their net demand deposits was increased from 11 per cent to 12 per cent. This action increased required reserves approximately \$380 million and RPD's \$360 million.
- 3/ Effective December 1, 1960, the reserve requirement of central reserve city banks against their net demand deposits was reduced from 17-1/2 per cent to 16-1/2 per cent. This action reduced required reserves approximately \$250 million and RPD's \$200 million.
- 4/ Effective October 25, 1962, the reserve requirement of reserve city banks against their time deposits was reduced from 5 per cent to 4 per cent. This action reduced required reserves and RPD's approximately \$410 million.
- 5/ Effective November 1, 1962, the reserve requirement of country banks against their time deposits was reduced from 5 per cent to 4 per cent. This action reduced required reserves and RPD's approximately \$360 million.
- 6/ Effective July 14, 1966, reserve requirement of reserve city banks against time deposits (other than savings deposits) in excess of \$5 million was increased from 4 per cent to 5 per cent. This action increased required reserves and RPD's approximately \$350 million.
- 7/ Effective July 21, 1966, reserve requirement of country banks against time deposits (other than savings deposits) in excess of \$5 million was increased from 4 per cent to 5 per cent. This action increased required reserves and RPD's approximately \$70 million.
- 8/ Effective September 8, 1966, reserve requirement of reserve city banks against time deposits (other than savings deposits) in excess of \$5 million was increased from 5 per cent to 6 per cent. This action increased required reserves and RPD's approximately \$370 million.
- 9/ Effective September 15, 1966, reserve requirement of country banks against time deposits (other than savings deposits) in excess of \$5 million was increased from 5 per cent to 6 per cent. This action increased required reserves and RPD's approximately \$75 million.

III.

- 10/ Effective March 2, 1967, reserve requirement of all member banks against savings deposits and the first \$5 million of time deposits was reduced from 4 per cent to 3-1/2 per cent. This action reduced required reserves and RPD's approximately \$425 million.
- 11/ Effective March 16, 1967, reserve requirement of all member banks against savings deposits and the first \$5 million of time deposits was reduced from 3-1/2 per cent to 3 per cent. This action reduced required reserves and RPD's approximately \$425 million.
- 12/ Effective January 11, 1968, reserve requirement of reserve city banks against net demand deposits in excess of \$5 million was increased from 16-1/2 per cent to 17 per cent. This action increased required reserves approximately \$360 million and RPD's \$310 million.
- 13/ Effective January 18, 1968, reserve requirement of country banks against net demand deposits in excess of \$5 million was increased from 12 per cent to 12-1/2 per cent. This action increased required reserves approximately \$190 million and RPD's \$170 million.
- 14/ Effective April 17, 1969, reserve requirement of all member banks against net demand deposits was increased 1/2 percentage point. This action increased required reserves approximately \$660 million and RPD's \$590 million.
- 15/ Effective October 16, 1969, a 10 per cent marginal reserve requirement was established on certain foreign borrowings, primarily Euro-dollars, by member banks and on the sale of assets to their foreign branches. This action increased required reserves and RPD's approximately \$400 million.
- 16/ Effective October, 1970, reserve requirement of all member banks against time deposits (other than savings deposits) in excess of \$5 million was reduced from 6 per cent to 5 per cent. At the same time, a 5 per cent reserve requirement was imposed against funds obtained by member banks through the issuance of commercial paper by their affiliates. This action reduced required reserves and RPD's approximately \$500 million (net).
- 17/ Effective January 7, 1971, the reserve percentage required to be maintained against certain foreign borrowings, primarily Euro-dollars, by member banks, and the sale of assets to their foreign branches was raised from 10 per cent to 20 per cent. This action had little effect on required reserves and RPD.
- 18/ Effective November 9, 1972, Regulation D and J were revised to (1) adopt a system of reserve requirements against demand deposits of all member banks based on the amount of such deposits held by a member bank, and (2) to require banks -- member and nonmember -- to pay cash items presented by a Federal Reserve Bank on the day of presentation in funds available to the Reserve Bank on that day. These changes reduced required reserves approximately \$2.5 billion, effective November 9; \$1.0 billion, effective November 16, and increased required reserves \$300 million, effective November 23. On the same dates RPD's were reduced \$2.3 billion, and \$785 million and increased \$235 million, respectively.
