REDEFINED MONEY STOCK MEASURES, LIQUID ASSETS
AND RELATED COMPONENTS
1959-1979

The attached tables show historical data for redefined money stock measures and liquid assets. The new definitions of money are as follows:

- M-1A -- Currency plus demand deposits at commercial banks. This is essentially the same as the old M-1 with one exception--it excludes demand deposits held by foreign banks and official institutions.
- M-1B -- This equals M-1A plus other checkable deposits at all depository institutions including NOW accounts, ATS, credit union share drafts and demand deposits at mutual savings banks.
- M-2 -- This equals M-1B plus savings and small-denomination time deposits at all depository institutions, overnight RPs at commercial banks, overnight Eurodollars held by U.S. residents other than banks at Caribbean branches of member banks, and money market mutual fund shares.
- M-3 -- This equals M-2 plus large-denomination time deposits at all depository institutions and term RPs at commercial banks and savings and loan associations.
- L -- This equals M-3 plus other liquid assets not included elsewhere such as term Eurodollars held by U.S. residents other than banks, bankers acceptances, commercial paper, Treasury bills and other liquid Treasury securities and U.S. savings bonds.

For a detailed explanation of the new measures see the February 1980 issue of the Federal Reserve Bulletin.
