MONEY STOCK MEASURES AND LIQUID ASSETS HISTORICAL DATA

The money stock and related series have been benchmarked to incorporate data from the June, September and December 1980 call reports and other sources. In addition, travelers checks of nonbank issuers, not previously included in the series because of lack of data availability have been added to the historical series for M1-A and the broader aggregates. For more complete details see Federal Reserve statistical release H.6, "Money Stock Measures and Liquid Assets", for June 26, 1981.
