1. Estimates for March are based on data collected by the Federal Reserve from a stratified random sample of 546 banks and 89 mutual savings banks.

2. Money market certificates (MMCs) are nonnegotiable time deposits in denominations of \$10,000 or more with original maturities of exactly 26 weeks for which the maximum permissible rate of interest on new deposits is related to the discount yield on the most recently issued 6-month Treasury bill (auction average). See Table 1.16 in the Federal Reserve <u>Bulletin</u> for specific ceiling rates.

3. This category includes all 4-year and over variable ceiling accounts having no legal minimum denomination issued between July 1 and December 31, 1979 and all 2-1/2 year and over variable ceiling accounts issued since January 1, 1980. See Table 1.16 in the Bulletin for specific ceiling rates.

4. All Savers Certificates are one-year nonnegotiable time deposits that have an annual investment yield equal to 70 percent of the average yield for 52-week U.S. Treasury bills.

5. Retail repurchase agreements are in denominations of less than \$100,000 with maturities of less than 90 days that arise from the transfer of direct obligations of, or obligations fully-guaranteed as to principal and interest by, the U.S. Government or an agency thereof.

6. Ceiling-free IRA/Keogh time deposits of less than \$100,000 with original maturities of 1-1/2 years of more, authorized beginning December 1, 1981.

Note: Information has recently become available on the total volume outstanding in all IRA and Keogh accounts at depository institutions. As of the end of February 1982, outstanding balances in all retirement accounts, regardless of maturity or ceiling-rate, was \$10,074 million at commercial banks, \$4,885 million at mutual savings banks, \$14,456 million at savings and loan associations and \$353 million at credit unions. Preliminary information as of the end of March indicates that these accounts had increased to \$11,693 million at commercial banks, \$5,097 million at mutual savings banks, \$15,178 million at savings and loan associations and \$447 million at credit unions.
