r - revised.

1. Estimates are based on data collected by the Federal Reserve from a stratified random sample of about 550 banks and 90 mutual savings banks.

2. 91-day money market certificates are negotiable or nonnegotiable time deposits issued in denominations of at least \$7,500, but less than \$100,000, with original maturities of exactly 91 days for which the maximum permissible rate of interest on new deposits is tied to the discount yield on the most recently issued 91-day (13-week) Treasury bill (auction average).

3. 6-month money market certificates (MMCs) are nonnegotiable time deposits in denominations of \$10,000 or more with original maturities of exactly 26 weeks for which the maximum permissible rate of interest on new deposits related to the discount yield on the most recently issued 6-month Treasury bill (auction average). 4. This category includes all 4-year and over variable ceiling accounts having no legal minimum denomination issued between July 1 and December 31, 1979 and all 2-1/2 year and over variable ceiling accounts issued since January 1, 1980.

5. All Savers Certificates are one-year nonnegotiable time deposits that have an annual investment yield equal to 70 percent of the average yield for 52-week U.S. Treasury bills.

6. Ceiling-free time deposits are all negotiable or nonnegotiable time deposits in denominations of less than \$100,000 with original maturities of 3-1/2 years or more that were authorized beginning May 1, 1982. Fixed-rate accounts pay one rate of return over the life of the instrument, whereas variable rate accounts pay a rate of return that may vary over the life of the instrument. Excludes IRA/Keogh accounts.

7. Ceiling-free IRA/Keogh time deposits of less than \$100,000 with original maturities of 1-1/2 years of more, authorizative ginning December 1, 1981. Fixed-rate accounts pay one rate of return over the life of the instrument, whereas variable rate accounts pay a rate of return that may change periodically over the life of the instrument. All other IM and Keogh Plan time and savings deposits include all IRA/Keogh time deposits regardless of maturity or calling rate.

8. Retail repurchase agreements are in denominations of less than \$100,000 with maturities of less than 90 days that arise from the transfer of direct obligations of, or obligations fully-guaranteed as to principal and interest by, the U.S. Government or an agency thereof.

r - revised. 1. Data not available.

Note: Information has recently become available on the total volume outstanding in all IRA and Keogh accounts at depository institutions. As of the end of February 1982, outstanding balances in all retirement accounts, regardless of maturity or ceiling-rate, was \$10,166 million at commercial banks, \$5,128 million at mutual savings banks, \$14,377 million at savings and loan associations and \$352 million at credit unions. As of the end of March, data indicate that these accounts had increased to \$11,660 million at commercial banks, \$5,367 million at mutual savings banks, \$15,493 million at savings and loan associations and \$447 million at credit unions. Preliminary information as of the end of April show \$13,006 million at commercial banks, \$5,670 at mutual savings banks, \$16,313 million at savings and loan associations and \$538 million at credit unions.

Note: See table 1.16 in the Federal Reserve Bulletin for regulatory ceiling rates on specific account categories.
