1. Estimates are based on data collected by the Federal Reserve from a stratified random sample of about 550 banks and 90 mutual savings banks.

2. 7- to 31-day money market certificates are nonnegotiable time deposits that require a minimum daily balance of \$20,000, but less than \$100,000, and have an original maturity or required notice period of at least 7 days but no more than 31 days. The maximum permissible rate of interest is tied to the discount yield (auction average) on the most recently issued 91-day Treasury bill.

3. 91-day money market certificates are negotiable or nonnegotiable time deposits issued in denominations of at least \$7,500, but less than \$100,000, with original maturities of exactly 91 days for which the maximum permissible rate of interest on new deposits is tied to the discount yield on the most recently issued 91-day (13-week) Treasury bill (auction average).

4. 6-month money market certificates (MMCs) are nonnegotiable time deposits in denominations of \$10,000, but less than \$100,000, with original maturities of exactly 26 weeks for which the maximum permissible rate of interest on new deposits related to the discount yield on the most recently issued 6-month Treasury bill (auction average).

5. This category includes all 4-year and over variable ceiling accounts having no legal minimum denomination issued between July 1 and December 31, 1979 and all 2-1/2 year and over variable ceiling accounts issued since January 1, 1980.

6. All Savers Certificates are one-year nonnegotiable time deposits that have an annual investment yield equal to 70 percent of the average yield for 52-week U.S. Treasury bills.

7. Ceiling-free time deposits are all negotiable or nonnegotiable time deposits in denominations of less than \$100,000 with original maturities of 3-1/2 years or more that were authorized beginning May 1, 1982. Fixed-rate accounts pay one rate of return over the life of the instrument, whereas variable rate accounts pay a rate of return that may vary over the life of the instrument. Excludes IRA/Keogh accounts.

8. Ceiling-free IRA/Keogh time deposits of less than \$100,000 with original maturities of 1-1/2 years or more, were authorized beginning December 1, 1981. Fixed-rate accounts pay one rate of return over the life of the instrument, whereas variable rate accounts pay a rate of return that may change periodically over the life of the instrument. All other IRA and Keogh Plan time and savings deposits include all IRA/Keogh time deposits regardless of maturity or ceiling rate.

9. Retail repurchase agreements are in denominations of less than \$100,000 with maturities of less than 90 days that arise from the transfer of direct obligations of, or obligations fully-guaranteed as to principal and interest by, the U.S. Government or an agency thereof.

NOTE: Monthly seasonal factors for all series and weekly factors for savings, small time, and large time deposits are identical to those published for corresponding months in 1982. Weekly seasonal factors for currency, demand deposits, and demand deposits plus OCD are projections based on the same data used to derive published 1982 factors, but they allow for weeks ending one day earlier in 1982. All of these factors are subject to change in the forthcoming annual revision.
